## WHAT'S NEW

### Fixed Date Conformity -

The 2006 General Assembly enacted legislation that moved Virginia's fixed date conformity with the Internal Revenue Code from January 7, 2005, to December 31, 2005. At the time these instructions went to print, the only required adjustments for "fixed date conformity" were: (i) the special 30% and 50% bonus depreciation allowance for certain assets under the IRC, and (ii) the 5-year net operating loss (NOL) carry back allowed for net operating losses generated in taxable year 2001 or 2002. If federal legislation is enacted that results in changes to the Internal Revenue Code for the 2006 taxable year, taxpayers may be required to make adjustments to their Virginia returns that are not described in the instruction booklet. Supplemental instructions will be posted on our website at [www.tax.virginia.gov](http://www.tax.virginia.gov). See pages 4 and 5 for additional information.

### Tobacco Quota Buyout:

For taxable years beginning on and after January 1, 2006, there shall be subtracted from federal taxable income contract payments to a producer of quota tobacco or a tobacco quota holder as provided under the American Jobs Creation Act of 2004. If the payment is received in installment payments, then the recognized gain, including any gain recognized in taxable year 2005, may be subtracted in the taxable year immediately following the year in which the installment payment is received. If the payment is received in a single payment, then 10% of the recognized gain may be subtracted in the taxable year immediately following the year in which the single payment is received. The taxpayer may then deduct an equal amount in each of the nine succeeding taxable years. For more information visit [www.tax.virginia.gov](http://www.tax.virginia.gov).

### Virginia Coal Employment and Production Incentive Tax Credit

The credit may be allocated between the electricity generator and any person with an economic interest in coal, effective for purchases of coal made on or after January 1, 2006. The allocation of the credit may be provided in the contract between the parties for the sale of the coal. The parties may amend any such allocation with a written instrument prior to December 31 of the year that the coal was purchased. All contracts and written instruments are subject to audit by TAX.

Credits earned on or after January 1, 2006, which are allocated to persons with an economic interest in coal may be used against any tax imposed by the Commonwealth. If the credits earned on or after January 1, 2006, and prior to July 1, 2011, exceed the tax liability of the taxpayer, the excess may be redeemed in a manner similar to the Coalfield Employment Enhancement Tax Credit. The carryover period for this credit is extended from five years to ten years. This change in the carryover period is effective for coal purchased and consumed on or after January 1, 2001.

### Coalfield Employment Enhancement Tax Credit

The sunset dates for when the credit may be earned and claimed are extended to the years 2014 and 2017, respectively. Credits earned after taxable years beginning on or after January 1, 2008 may be claimed in the taxable years three years from the year the credit was earned.

### Amended Returns after Change to Federal Taxable Income

Under new legislation, taxpayers are now allowed one year from the final determination of a change to federal taxable income made by the Internal Revenue Service to file an amended return. The legislation reconciled inconsistent statutory periods for filing amended returns resulting from federal changes. Previously, Virginia required such returns to be filed within ninety days if additional tax was due, but allowed one year if a refund was involved.

## VIRGINIA CORPORATION INCOME TAX RETURNS FOR 2006

(References are to the Code of Virginia, unless otherwise noted)

### GENERAL INFORMATION

#### CORPORATIONS REQUIRED TO FILE

Every corporation organized under the laws of Virginia, every foreign corporation registered with the State Corporation Commission for the privilege of doing business in Virginia, and every corporation having income from Virginia sources must (with the exceptions stated in this instruction) file a return with the **Virginia Department of Taxation, P.O. Box 1500, Richmond, Virginia 23218-1500**, on or before the fifteenth day of the fourth month (fifteenth day of the sixth month for nonprofit corporations) following the close of its taxable year.

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he is deemed to be operating such business or property, whether he is carrying on the business for which the corporation was organized or only in marshaling, selling, or disposing of its assets for purposes of liquidation. (Sec. 58.1-441)

Domestic International Sales Corporations (DISC) are taxable under Virginia law and must file Form 500. It is, therefore, necessary for a DISC to report its federal taxable income even though no federal tax is applied.

Foreign Sales Corporations (FSC) and any income attributable to an FSC are exempt under Virginia law; however, it may be necessary for an FSC to file an information return if it meets the provisions of Sec 58.1-441 and the regulations thereunder.

Effective January 1, 2001, any electric supplier, pipeline distribution company, gas utility, or gas supplier that is subject to federal income tax is also subject to the Virginia corporation income tax and should file a Virginia Corporation Return, Form 500.

Beginning on or after January 1, 2004, electric suppliers may be subject to a minimum tax instead of the corporate tax for any taxable year their minimum tax liability is greater than their corporate income tax liability. Form 500-EL is used to compute the minimum tax and determine which tax applies.

Electric Cooperatives are subject to tax on all modified net income derived from nonmember sales and must file a Form 500-EC even if no tax is due. Beginning on or after January 1, 2004, electric cooperatives may be subject to a minimum tax instead of the modified net income tax if their minimum tax liability is greater than their modified net income tax liability.

Electing small business corporations, not taxable as corporations under Sec. 58.1-400, are required to file the new Form 502, for pass-through entities instead of Form 500-S. Form 500-S has been discontinued. Such small business corporations must have elected to be so taxed under Subchapter S of the Internal Revenue Code.

#### EXEMPT CORPORATIONS

Corporations not organized for pecuniary profit, which are also exempt from income tax under Section 501(c) of the Internal Revenue Code, are taxed only on their unrelated business taxable income and must report that unrelated business income on Form 500; otherwise, no returns are required.

Public service corporations which pay a state franchise tax or license tax upon gross receipts, insurance companies which pay a state license tax on gross premiums and reciprocal or inter-insurance exchanges which pay a premium tax to the state

are not required to file an income tax return. Additionally, state and national banks, banking associations, trust companies and credit unions organized and conducted as banking institutions are not taxed on their income by Virginia and are not required to file an income tax return. (Sec. 58.1-401.)

#### PERIOD TO BE COVERED BY RETURN

A corporation's taxable year is the same as its taxable year for federal income tax purposes. If a corporation's taxable year is changed for federal income tax purposes, its taxable year also changes for state income tax purposes. (Sec. 58.1-440.)

#### ACCOUNTING METHODS

A corporation's method of accounting is the same as its method of accounting for federal income tax purposes. In the absence of any method of accounting for federal income tax purposes, Virginia taxable income shall be computed on the accounting basis regularly used in the corporation's bookkeeping, provided such method in the opinion of the Department of Taxation clearly reflects income. If a corporation's accounting method changes for federal income tax purposes, it also changes for state income tax purposes. (Sec. 58.1-440.)

#### APPORTIONMENT

**Double-Weighted Sales Factor.** A double-weighted sales factor is used for corporate apportionment. Under this formula, the sales factor is weighted 50% and payroll and property as 25% each in determining the overall corporate income apportionment factor. See the instructions for Schedule 500A for details on how to compute apportionable income factors.

#### WHERE AND WHEN TO FILE

Every corporation income tax return must be filed with the **Virginia Department of Taxation, P.O. Box 1500, Richmond, Virginia 23218-1500**, on or before the 15th day of the fourth month (15th day of the sixth month for nonprofit corporations) following the close of a corporation's taxable year. (Sec. 58.1-441.)

#### ELECTRONIC FUNDS TRANSFER (EFT)

Businesses with an average monthly liability exceeding \$20,000 are required by law to pay their taxes by EFT. This requirement applies separately for corporate income tax, retail sales and use tax, and withholding tax. Taxpayers that are identified as mandatory EFT filers will be notified by first class mail to begin making tax payments by EFT. Taxpayers who do not have an average monthly tax liability of \$20,000 may voluntarily choose to pay any of these three types of taxes by EFT.

#### COMPUTER GENERATED/PREPARED FORMS

A corporation may elect to file its Virginia Corporation Income Tax return on Department-approved computer-generated forms.

#### PAYMENT OF TAX

Unless payment is made through our website or by EFT, a check or money order covering the unpaid balance of the tax must be attached to the return along with Form 500V. Checks or money orders should be made payable to the Virginia Department of Taxation. (Sec. 58.1-455.) Payments returned by the bank will be subject to a returned payment fee in addition to any other penalties that may be incurred.

#### EXTENSION OF TIME, FORM 500CP

For taxable years beginning on and after January 1, 2005,

an automatic extension of time to file is granted to the date six months after such due date or 30 days after the extended date for filing the federal income tax return, whichever is later, provided the full amount estimated as the tax due has been paid on or before the original due date. If sufficient payments have been made, no further action is required to obtain the extension to file. If an additional tax payment is needed to ensure the tax liability has been paid, use Form 500CP to remit the payment. You may also submit an additional EFT payment, or use ifile at [www.tax.virginia.gov](http://www.tax.virginia.gov). Electric cooperatives are required to make sufficient payments based on their estimated modified net income tax liability. **If the return is filed after the extended due date, the late filing / late payment penalty will apply as if no extension had been granted. The minimum penalty for failure to file timely is \$100.**

If any amount of the tax is underestimated, interest accrues at the underpayment rate set in Sec. 6621, IRS Code, plus 2%. In addition, if the underestimation of the balance of tax due exceeds 10% of the actual tax liability, a penalty will be added in an amount equal to 2 % of the tax due per month for each month or part of a month from the original due date of the return to the date of payment. (Sec. 58.1-453.)

#### **PENALTIES AND INTEREST**

The penalty for failing to file a return by the due date is 6% of the tax due for each month or part of a month that the return is late. **The minimum penalty for failure to file timely is \$100. (Sec. 58.1-450.)** The penalty for failing to pay the tax due by the due date is also 6% of the tax due for each month or part of a month that the payment is late. (Sec. 58.1-455). For any month that the late filing penalty is imposed, the late payment penalty will not apply. The total penalties for failing to file and failing to pay by the due date cannot exceed 30% of the tax due. In no case, however, will the penalty for failure to file timely be less than \$100, and this minimum \$100 penalty applies whether or not tax is due for the period covered by the return. Civil and criminal penalties may be imposed for filing a fraudulent return. Effective July 1, 2003, the criminal penalty for filing a fraudulent return changed from a Class 1 misdemeanor to a Class 6 felony. (Sec. 58.1-451 and 58.1-452.) Interest on the unpaid balance of any tax and penalty is charged at the underpayment rate established by Sec. 6621 of the Internal Revenue Code, plus 2%, from the due date until paid.

#### **SIGNATURE AND VERIFICATION**

The return must be signed by the president, vice-president, treasurer, assistant treasurer, chief accounting officer, or other officer duly authorized to act. If an accountant who is not a full-time officer or employee of the corporation prepared the return, or assisted in its preparation, give the name and address of the accountant. (Sec. 58.1-447.)

#### **ATTACH COPY OF THE FEDERAL RETURN**

A copy of your federal income tax return, as filed with the Internal Revenue Service, must be attached to the Virginia income tax return. Corporations included in a consolidated federal return must file a copy of the consolidated federal return. (Sec. 58.1-441.) If the federal return is so voluminous that it is impractical to file a complete copy with the Virginia return, the complete federal return must be made available to the Department upon request.

#### **CONSOLIDATED OR COMBINED RETURNS**

If one corporation owns 80 percent or more of the outstanding voting stock of another or others, or if 80 percent or more of the outstanding voting stock of two or more corporations is owned by the same interest, a consolidated or a combined return may be filed by those corporations that are subject to Virginia income taxes.

If a corporation elects to file on either a separate, consolidated, or combined basis, all returns thereafter must be filed on the same basis, unless the Department of Taxation grants permission to change. (Sec. 58.1-442.) A binding election is made in the first year in which a group of affiliated corporations is eligible to file a consolidated or combined return in Virginia. *Prior elections continue in effect and can be changed only with permission granted by the Virginia Department of Taxation.*

If a group of affiliated corporations has previously elected to file separate returns or a combined return for two or more members, then permission to file a consolidated return will generally be denied unless the group: (1) files a consolidated federal return, and (2) includes corporations that are required for Virginia purposes to use different apportionment factors. Any request to switch from one filing method to another must be submitted on or before the due date for the first return to use the requested filing method.

For purposes of Sec. 58.1-442:

- (1) a consolidated return means a single return for a group of corporations affiliated within the meaning of Sec. 58.1-302, prepared in accordance with the principles of Sec. 1502 of the Internal Revenue Code and regulations thereunder;
- (2) a combined return means a single return for a group of corporations affiliated within the meaning of Sec. 58.1-302, in which income or loss is separately determined in accordance with the following:
  - a. Virginia taxable income or loss is computed separately for each corporation;
  - b. allocable income is allocated to the state of commercial domicile separately for each corporation;
  - c. apportionable income or loss is computed utilizing separate apportionment factors for each corporation; and
  - d. income or loss computed in accordance with a. through c. above is combined and reported on a single return for the affiliated group.

All supplementary and supporting schedules filed with a consolidated or combined return should be prepared in columnar form, one column being provided for each corporation included in the consolidated or combined return. Supporting schedules for consolidated returns should also include a column for totals of like items before adjustments are made, a column for intercompany eliminations and adjustments, and a column for totals of like items after giving effect to the eliminations and adjustments. The items included in the columns for eliminations should be symbolized to readily identify contra items affected, and suitable explanations should be added if necessary.

*Prohibition of worldwide consolidation or combination.* The Virginia Department of Taxation shall not require, and no corporation may elect, that a consolidation or combination of an affiliated group include any controlled foreign corporation, the income of which is derived from sources outside the United States. (Sec. 58.1- 443.)

Effective for applications filed with the Department on or after July 1, 2003, a group of affiliated corporations that has filed Virginia income tax returns on the same basis for at least the preceding 20 years will be granted permission to change the basis of the type of return filed from consolidated to separate or from separate or combined to consolidated if: (1) the tax computed under the affiliated group's requested return basis would be equal to or greater than the tax for the full taxable year immediately preceding the taxable year for which the requested return basis would be applicable; and (2) the affiliated group agrees to compute its tax liability under both the requested return

basis and the elected return basis and pay the greater of the two amounts for the taxable year in which the requested return basis is effective and for the immediately succeeding taxable year.

#### **IN-STATE CORPORATIONS**

If the entire business of the corporation is transacted or conducted within Virginia, the tax is computed upon the entire Virginia taxable income of the corporation for each taxable year. The entire business of the corporation will be considered to have been transacted or conducted within this state if the corporation is not subject to a net income tax, a franchise tax measured by net income or a franchise tax for the privilege of doing business in another state. (Sec. 58.1-405.)

#### **MULTI-STATE CORPORATIONS - TRANSACTING OR CONDUCTING PART OF BUSINESS WITHIN AND PART WITHOUT THIS STATE**

A corporation having income from business activity that is taxable both within and without Virginia must allocate and apportion its net income as provided in Sec. 58.1-406 through 58.1-421. Such a corporation must complete and attach to the return Schedule 500A. A corporation is not taxable in another state if that state is prohibited from imposing an income tax on the corporation because its business activity in the state does not exceed the minimum standards set forth in Public Law 86-272. (15 U.S.C.A. Sec. 381 - 384.)

#### **REPORT OF CHANGE IN FEDERAL TAXABLE INCOME**

If the amount of a corporation's federal taxable income as reported on its federal income tax return for any taxable year is changed or corrected by the IRS (or other competent authority), or is changed as the result of a renegotiation of a contract or subcontract with the United States, the taxpayer must report this change to the Virginia Department of Taxation within one year. Any taxpayer filing an amended federal return must also file an amended state return, Form 500X, and must pay any additional tax and interest due, if applicable.

#### **REFUND OF VIRGINIA TAX**

A corporation may file an amended return, Form 500X, to claim a refund within the later of:

- (1) three years from the due date of the return or extended due date (whichever is later);
- (2) one year from the final determination of any change or correction in the liability of the taxpayer for any federal tax upon which the state tax is based, provided that the refund does not exceed the amount of the decrease in Virginia tax attributable to such federal change or correction;
- (3) two years from the filing of an amended Virginia return resulting in the payment of additional tax, provided that the amended return raises issues relating only to the prior amended return and the refund does not exceed the amount of the tax payment made with the prior amended return; or
- (4) two years from the payment of an assessment, provided the amended return raises issues relating only to the prior assessment and the refund does not exceed the amount of tax paid on the prior assessment.

Attach a copy of federal Forms 1120-X, 1139, the Revenue Agent's Report, Statement of Adjustment to Your Account or other form or statement showing the nature of any federal change and the date that it became final. For an Electric Cooperative subject to the modified net income tax, an amended return may be filed on Form 500-EC.

#### **NET OPERATING LOSS DEDUCTIONS**

**Note:** With Fixed Date Conformity, Virginia Code references conform to the Internal Revenue Code as it existed on December 31, 2005. Thus, federal changes effective after December 31, 2005, will require modifications for Virginia purposes. For tax years 2001 and 2002, a taxpayer may carryback a net operating loss 5 years for federal purposes, however, the loss can only be carried back 2 years for Virginia purposes unless an exception was allowed under federal law. Consequently, to the extent federal and Virginia net operating loss carrybacks and carryforwards differ, separate accounting will be required. For example: If the federal loss is carried back 5 years, there will be no adjustment to Virginia returns for the 5<sup>th</sup>, 4<sup>th</sup> and 3<sup>rd</sup> carryback years. The federal loss can be carried back two years for Virginia purposes and separate tax records must be maintained to reconcile the differences. Beginning in 2003, the carryback period for net operating losses is the same for federal and Virginia (2 years). An adjustment still may be necessary depending on differences between the 5 and 2 year carrybacks for 2001 and 2002. There is no Virginia net operating loss, as such, available for carryback or carryover. However, since the starting point (Line 1, Form 500) is federal taxable income, there is statutory provision for net operating loss deductions to the extent that such losses are included in federal taxable income. Since federal income must be modified for Virginia additions and subtractions, the additions and subtractions of the loss year follow the federal loss to the year the loss is utilized. Thus, if the federal net operating loss is fully utilized in a carryback or carryover year, the net amount of additions and subtractions will be applied in the same ratio to the applicable year. The federal net operating loss deduction may be used only to reduce federal taxable income, and a federal net operating loss deduction cannot create or increase a federal operating loss.

For a copy of the Virginia regulations, visit [www.tax.virginia.gov](http://www.tax.virginia.gov) or write to **Department of Taxation, Forms Request Unit, P.O. Box 1317, Richmond, VA 23218-1317** or call **804-440-2541**. For more information, call **804-367-8037** or write to **Department of Taxation, P.O. #### **ESTIMATED INCOME TAX**

You can file and pay estimated income tax electronically at [www.tax.virginia.gov](http://www.tax.virginia.gov), submitting EFT payments or filing **Form 500ES**. If a corporation filed estimated tax last year, then a personalized coupon booklet including the necessary vouchers will be mailed unless you are required to pay by EFT. If by February 14, 2006, a coupon booklet has not been received, a corporation may obtain nonpersonalized vouchers by visiting [www.tax.virginia.gov](http://www.tax.virginia.gov) or contacting the **Virginia Department of Taxation, Forms Request Unit, at 804-440-2541**. It is not necessary to file Form 500ES if estimated tax payments are made by EFT.

In case of any underpayment of estimated tax by a corporation, Sec. 58.1-504 requires that an addition to tax be made at the established interest rate for underpayments — unless one of the exceptions in that section applies. Use **Form 500C** to compute this addition to the tax and/or to indicate that an exception applies.

#### *Calendar Year Filers*

Every corporation subject to Virginia income tax whose accounting period is a calendar year, is required to make a declaration of estimated tax for calendar year 2007 if its Virginia income tax for that period can reasonably be expected to exceed \$1,000. Payment of the estimated tax must be made to the Department of Taxation as follows: 25% by April 15, 2007 25%

by June 15, 2007 25% by September 15, 2007 and 25% by December 15, 2007.

#### *Fiscal Year Filers*

If a corporation's accounting period is a fiscal year beginning in 2007, the corporation is required to make a declaration of estimated income tax and pay 25% of the amount due to the Department of Taxation by the fifteenth day of the 4th month following the beginning of its fiscal year. Subsequent installments will be payable by the 15th day of the 6th month, the 15th day of the 9th month, and the 15th day of the 12th month following the beginning of its fiscal year. (Sec. 58.1-500 - 58.1-504.)

#### **VIRGINIA TAXABLE INCOME**

Virginia taxable income for a taxable year means the federal taxable income for such year of a corporation (or the "investment company taxable income" of regulated investment companies, or the "real estate investment trust taxable income" of real estate investment trusts, to which shall be added in each case any amount of capital gains taxable to the corporation under federal law) or the unrelated business taxable income of organizations exempt from income tax under Sec. 501(c) of the Internal Revenue Code, adjusted as provided under Sec. 58.1-402; except a corporation subject to the provisions of Sec. 58.1-403.

#### **FORM 500 INSTRUCTIONS**

**Fiscal Year Filers or Short Year Filers:** Complete this line only if your taxable year is not from January 1 to December 31. You must use the same taxable period on your Virginia return as on your federal return.

Check the appropriate blocks under the section labeled "IMPORTANT", and complete the required information as requested in spaces provided at the top of page one. Be sure that name, address, federal employer identification number, and Virginia corporation account number are correctly reported. The Virginia account number for your corporation is shown on the corporation income tax payment vouchers. Check the "Final Return" box if no further Virginia income tax return is required for any taxable year.

**Principal Business Activity Code:** Enter the 6 digit North American Industry Classification System code ( NAICS) code. Further information on this code can be found at [www.census.gov/pub/epcd/www/naics.html](http://www.census.gov/pub/epcd/www/naics.html).

#### **Line 1 Federal Taxable Income**

Enter taxable income after net operating loss deductions and special deductions for dividends as it appears on the federal income tax return filed with the Internal Revenue Service. Line 1 may not be less than zero except to report a net operating loss in the current year. Any corporation that is included in a consolidated return for federal income tax purposes, but files separate or combined Virginia returns or files a consolidated Virginia return with fewer than all of the members included in the federal return, must include with the Virginia return, schedules and statements necessary to reconcile actual consolidated federal taxable income to the federal taxable income reported on the Virginia return.

#### **Line 2 Additions to Federal Taxable Income**

Enter the amount by which any of the following changes reduced your federal taxable income:

(a) **Fixed Date Conformity – Depreciation.** Enter the amount that should be added to Federal Taxable Income based upon the recomputation of allowable depreciation. If depreciation was included in the computation of your Federal Taxable Income and one or more of the depreciable assets received the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2006

inclusive, then depreciation must be recomputed for Virginia purposes as if such assets did not receive the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2006 inclusive. If the total 2006 Virginia depreciation is less than 2006 federal depreciation, then the difference must be recognized as an addition on Line 2(a). For further instructions, see Virginia Tax Bulletins 02-3, 03-1, 04-02, 05-1 and 06-01 at [www.tax.virginia.gov](http://www.tax.virginia.gov) or call (804) 367-8037.

#### (b) **Fixed Date Conformity — Other**

(1) **Disposed Asset –** If an asset was disposed of in 2006 and such asset received the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2006 inclusive, and a gain or loss was recognized for federal purposes, then the gain or loss must be recomputed as if such asset did not receive the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2006 inclusive. The adjustment will be the difference in the federal and Virginia basis of the asset when sold. If the federal basis of the asset is greater than the Virginia basis, (resulting in a lower gain reported for federal purposes), then the difference between the bases is an addition on the Virginia return. For further instructions, see Virginia Tax Bulletins 02-3, 03-01, 04-02, 05-1 and 06-01 which are available on the Department's website: [www.tax.virginia.gov](http://www.tax.virginia.gov) or call (804) 367-8037.

(2) **Other changes not listed –** Please refer to the Supplemental Fixed Date Conformity Instructions on the Department's website, [www.tax.virginia.gov](http://www.tax.virginia.gov) for information on any other additions due to federal tax legislation passed after the printing deadline for these instructions. The Department's website will also reflect any action by Virginia's General Assembly to advance the date of conformity to the Internal Revenue Code that may take place before the due date for your return. Enter any amounts described in the Supplemental Fixed Date Conformity Instructions. Also, please attach a schedule and explanation of such additions.

(c) Enter the amount shown on line 8 of Form 500AB as the exception amount for payments to a related entity in connection with trademarks, patents and similar intangible property. Attach Form 500AB.

(d) Enter the amount on line 10, Form 500AB, as the taxable amount of payments to a related entity in connection with trademarks, patents and similar intangible property. Attach Form 500AB.

(e) Enter the amount shown under Part I on page 2, line 28.

#### **Line 3 Total**

Enter the total of lines 1 and 2 (a), (b), (d) and (e).

#### **Line 4 Subtractions from Federal Taxable Income:**

Enter the amount by which any of the following changes increased your federal taxable income.

(a) **Fixed Date Conformity – Depreciation.** Enter the amount that should be subtracted from Federal Taxable Income based upon the recomputation of allowable depreciation. If depreciation was included in the computation of your Federal Taxable Income and one or more of the depreciable assets received the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2006 inclusive, then depreciation must be recomputed for Virginia purposes as if such assets did not receive the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2006 inclusive. If the total 2006 Virginia depreciation is more than 2006 federal

depreciation, then the difference must be recognized as a subtraction on Line 4(a). For further instructions, see Virginia Tax Bulletin 02-3, 03-01, 04-2, 05-1 and 06-01 at [www.tax.virginia.gov](http://www.tax.virginia.gov) or call (804) 367-8037.

**(b) Fixed Date Conformity — Other**

(1) **Disposed Asset** – If an asset was disposed of in 2006 and such asset received the special 30% or 50% bonus depreciation deduction for federal purposes in any of the years 2001 through 2006, and a gain or loss was recognized for federal purposes, then the gain or loss must be recomputed as if such asset did not receive the special 30% or 50% bonus depreciation deduction for federal purposes in any of years 2001 through 2006. The adjustment will be the difference in the federal and Virginia basis of the asset when sold. If the federal basis of the asset is lower than the Virginia basis, (resulting in a greater gain for federal purposes) then the difference between the two bases is included as a subtraction on the Virginia return. For further instructions, see Virginia Tax Bulletins 02-3, 03-01, 04-2, 05-1 and 06-01 which are available on the Department's website: [www.tax.virginia.gov](http://www.tax.virginia.gov) or call (804) 367-8037.

(2) Other changes not listed – Please refer to the Supplemental Fixed Date Conformity Instructions on the Department's website, [www.tax.virginia.gov](http://www.tax.virginia.gov) for information on any other subtractions due to federal tax legislation passed after the printing deadline for these instructions. The Department's website will also reflect any action by Virginia's General Assembly to advance the date of conformity to the Internal Revenue Code that may take place before the due date for your return. Enter any amounts described in the Supplemental Fixed Date Conformity Instructions. Also, please attach a schedule and explanation of such subtractions.

**Line 6**

If a Savings and Loan Association used the percentage of income method to compute its federal deduction for bad debts, then it must add the federal bad debt deduction (see line 24) and recompute the bad debt deduction for Virginia purposes by multiplying the amount on line 5 by 40%. If the Savings and Loan Association used the percentage of loans method or the experience method, enter the amount from page 2, Part 1, line 24. (Sec. 58.1-403.)

Multistate Corporations with no Virginia income must enter zeroes in 8(a) and 8(b). Otherwise, follow the instructions for lines 8(a) through 8(d) below.

**Line 8(a) Income Subject to Virginia Tax**

A corporation with income from business activity that is taxable both within and without Virginia should enter its multistate income subject to Virginia tax from Schedule 500A, line 16.

**Line 8 (b)**

Enter apportionment factor from the appropriate line from Schedule 500A, line 2, 3, 4, 5 or 10.

**Line 8 (c) and 8 (d)**

Nonapportionable Investment Function Net Income and Loss (applicable only to multi-state corporations):

Virginia law does not provide for an addition or subtraction of this income, nor does the law provide for the allocation of any income other than dividends. Lines 8(c) and 8(d) on the Form 500 recognize that some taxpayers may be entitled to an alternative method of allocation and apportionment if they can demonstrate that the application of Virginia's apportionment law to their particular facts for the taxable year would be contrary to the principles set forth in *Allied Signal, Inc. v. Director, Division of Taxation*, 112 S. Ct. 2251 (1992).

In *Allied Signal, Inc.*, the Court reaffirmed the continued validity of apportionment of any income received directly by the taxpayer, including investment income such as capital gains, unless the capital transaction serves an investment function that is completely unrelated to any operational activities carried on in the state. The Court also reinforced the principle that investment income may be included in apportionable income if there is a unitary relationship between the taxpayer and the entity in which the taxpayer has invested. However, the Court made it clear that the absence of a unitary relationship does not necessarily preclude apportionment.

These adjustments are only available to those multistate corporations that file a Virginia Schedule A to apportion and allocate their income, and provide clear and cogent evidence that the asset producing the income serves an investment function that is unrelated to operational functions. The denominator of the relevant apportionment factors shall also be adjusted to exclude items related to the investment assets.

Any taxpayer who qualifies for an alternative method of allocation and apportionment for this type of income is required to add back any loss included in federal taxable income that is attributable to the acquisition, ownership, management, stewardship, sale or exchange of investment assets that are unrelated to the taxpayer's operational function on line 8(d). If the taxpayer has previously claimed a subtraction for nonapportionable investment function income with respect to any investment assets, the addition is required for any subsequent losses generated by such assets.

**Burden of Proof:** as a prerequisite to the ability to claim an adjustment on lines 8(c) and 8(d) (which effectively allocates income other than dividends) the taxpayer must be able to demonstrate that the application of Virginia law to their particular facts will be unconstitutional. The burden is on the taxpayer to provide clear and cogent evidence that the capital investment was completely separate from its operations, and that the taxpayer's investment function was located outside of Virginia. The taxpayer must also demonstrate that the classification of the capital asset and its income for Virginia purposes is consistent with the manner in which the income has been allocated and apportioned with other state tax authorities. The taxpayer will be under a particularly heavy burden of proof in cases where the asset was clearly operational at any time. Objective evidence is required; an unsubstantiated statement as to the taxpayer's intent, purpose or state of mind will be insufficient to meet the burden.

Taxpayers claiming an adjustment for nonapportionable income on 2006 corporate tax returns must attach a statement to the return stating the nature of the adjustment and the basis for the position that relief is provided under the Constitution. Supplemental evidence should be clearly referenced and included with the return. The taxpayer should submit all evidence considered necessary to support the taxpayer's position. For additional information, see Virginia Tax Bulletin 93-4 (4/6/93).

whichever is less) in the year of purchase. The term "conservation tillage equipment" means "no-till" planters and drills, or *other equipment used to reduce soil compaction (including guidance systems to control traffic patterns that are designed to minimize soil disturbance)* which may be attached to equipment already owned. Any amount unused this year may be carried over to the next five taxable years. The credit shall be allocated to individual partners and shareholders in proportion to their ownership or interest in the partnership or S Corporation.

Attach a statement to your return showing purchase date, description and credit computation when claiming this credit.

### COAL COGENERATION CREDIT

The provision for this credit expired on December 31, 2001. Thus, no new credits are available after that date, however, the carryover stipulation allows for previously earned and unused credits to be carried over for the next five succeeding taxable years or until the full credit is used, whichever is sooner. Enter the amount of carryover credit in Part V on Form 500 CR and compute the amount of credit available this year, and the amount to be carried over to next year. For the purposes of determining "purchase price paid", the taxpayer may use the original total capitalized cost of such machinery and equipment, less capitalized interest. The credit is 10% of such expenditures and cannot exceed 40% of the taxpayer's Virginia income tax liability for the year, computed prior to computing the credit. Any amount unused this year may be carried forward for the next ten taxable years. Subchapter S corporations may pass any credit through to shareholders.

The Virginia Department of Environmental Quality administers the certification of all recycling machinery and equipment. The Department of Environmental Quality recycling equipment certification together with purchase receipts and invoices from the equipment purchase **MUST** be submitted with the corporate income tax return in order to receive the credit. For additional information on how to qualify for certification, contact the **Department of Environmental Quality, Equipment Certification Officer, P.O. If a taxpayer is located in an enterprise zone or in an economically distressed area (as defined by the Virginia Department of Economic Development), the threshold is reduced from 100 to 50. Credits will be recaptured proportionately if employment decreases during the five years following the initial credit year.

This nonrefundable credit is equal to \$1,000 per each qualifying new job in excess of the 100/50 job threshold and is spread over three years. The credit only applies to facilities where an announcement to expand or establish such a facility was made on or after January 1, 1994. For taxable years beginning on or after January 1, 2004 but before January 1, 2006, the threshold amount to qualify for this credit for a business facility located in a severely economically distressed area is lowered from 100 to 25 full time jobs. Severely economically distressed areas will be identified by the Virginia Economic Development Partnership and are defined as having an unemployment rate during the preceding year of at least twice the average statewide unemployment rate.

Please note that job expansion occurring during the 2005 taxable year will be eligible for this credit on the tax return for taxable year 2006 and not the return for 2005. Likewise, expansion occurring during 2006 will be eligible for the credit on tax returns for taxable year 2007.

The Department of Taxation is authorized to grant a total of \$100,000 in credits annually to businesses in severely economically distressed areas. The credit will be prorated among applicants if credit requests exceed the \$100,000 limit.

Businesses in severely economically distressed areas whose credit year is during 2006 must apply to the Department of Taxation, Tax Credit Unit, P.O. Box 715, Richmond, VA 23218-0715 by **April 1, 2007** using **Form 304**. This application form will be updated in the latter part of 2006. The credit for each job created will be \$700 in the year the job is created and in each of the two succeeding years that the job is continued for a maximum "per job" credit of \$2,100, provided the employment level in clean fuel jobs in the taxable year for which the credit is first claimed has increased from the previous taxable year. If the amount of the credit exceeds the tax liability in a given year, the unused credit may be carried forward for up to five years. To claim this

credit, complete **Form 305**, Clean Fuel Vehicle Job Creation Tax Credit, and transfer the computed amount to Form 500CR, Part XI. The Clean-Fuel Vehicle Job Creation Tax Credit will not be allowed for jobs for which the taxpayer claims the Major Business Facility Job Tax Credit.

A steam producer is a person who sells steam energy to a manufacturing company in the Commonwealth or uses steam to produce manufactured goods. The conveyance must be in perpetuity. The credit for 2006 is 50% and the credit for 2007 is 40% of the fair market value, as substantiated by a "qualified appraisal" prepared by a "qualified appraiser", as those terms are defined under applicable federal law and regulations governing charitable contributions. A subtraction is allowed for any gain or income recognized by a taxpayer on the application of a Land Preservation tax credit against a Virginia income tax liability, to the extent the gain is included in and not otherwise subtracted from federal adjusted gross income. This form is used to notify the Department of a donation of land or interest in land that creates a Land Preservation credit or the transfer of unused credit to another taxpayer. For taxable years beginning on and after January 1, 2001, every electricity generator in the Commonwealth will be allowed a credit against their corporation income tax or modified net income tax of an electric cooperative for coal mined in Virginia. The credit is at the rate of three dollars per ton for each ton purchased and consumed by the electricity generator provided the coal was mined in Virginia. The credit is available in the year the purchased coal mined in Virginia is consumed by the electric generator. the parties for the sale of the coal. The parties may amend any such allocation with a written instrument prior to December 31 of the year that the coal was purchased. All contracts and written instruments are subject to audit by TAX.

Credits earned on or after January 1, 2006, which are allocated to persons with an economic interest in coal may be used against any tax imposed by the Commonwealth. If the credits earned on or after January 1, 2006, and prior to July 1, 2011, exceed the tax liability of the taxpayer, the excess may be redeemed in a manner similar to the Coalfield Employment Enhancement Tax Credit. The carryover period for this credit is extended from five years to ten years. This change in the carryover period is effective for coal purchased and consumed on or after January 1, 2001.
