

**2020 Virginia Modified Apportionment Schedule
Schedule 500AP for VEDP-Certified Companies**

Companies certified by the Virginia Economic Development Partnership (VEDP) that are eligible to apportion Virginia taxable income using modified apportionment factors must use Schedule 500AP to determine the modified amount attributable to Virginia prior to completing the apportionment schedule appropriate for their return type. The amount in Column C below will be transferred to Column B of the applicable apportionment schedule (Schedule 500A, 500AC, or 502A), to be used as the numerator of the ratio when calculating the apportionment percentage that will be used to compute the income subject to taxation in Virginia. See the instructions prior to completing this form.

*** NOTE:** An eligible company that transacts or conducts its entire business within Virginia must complete the appropriate apportionment schedule and its income tax return as if it is a multistate company. See the instructions for Schedule 500A or Form 502 for additional information.

Name as shown on Form 500 or Form 502	FEIN
