What's New

Virginia's Conformity to the Internal Revenue Code

Virginia continues to conform to the Internal Revenue Code on a rolling basis, subject to certain exceptions. This allows Virginia to conform to federal tax changes to the IRC as soon as they are enacted by Congress. This also allows Virginia to conform to the Inflation Reduction Act and the Consolidated Appropriations Act of 2023. Conformity refers to how closely Virginia follows definitions and other provisions of the federal tax code, including the definition of income. The legislation passed by the General Assembly in 2023 sets guidelines for future federal law changes and their impact on Virginia returns. If changes are made to federal law that could impact your return and require adjustments, Virginia Tax will post information about this on its website at www.tax.virginia.gov.

Virginia will continue to deconform from the following: bonus depreciation allowed for certain assets under federal law; the five-year carryback of certain federal net operating loss (NOL) deductions generated in the 2008 or 2009 taxable years; the federal income treatment of applicable high yield discount obligations; and the federal income tax treatment of cancellation of debt income realized in connection with certain business debts. In addition, Virginia will continue to deconform from the following temporary changes made by the Coronavirus Aid, Relief, and Economic Security ("CARES") Act: suspension of certain NOL limitations for Taxable Years 2018, 2019, and 2020 and increasing the business interest limitation for Taxable Year 2019 and 2020.

At the time these instructions were published, the only required conformity adjustments were those mentioned above. However, if legislation is enacted that results in changes to the IRC for the 2024 taxable year, taxpayers may need to make adjustments to their Virginia returns that are not described in these instructions. Information about any such adjustments will be posted on the Department's website at www.tax.virginia.gov.

Changes to Residency Status for Military Personnel and Spouses of Military Personnel

For Taxable Year 2023 and after, if you are a servicemember serving in compliance with military orders or the spouse of such servicemember, the federal Servicemember Civil Relief Act ("SCRA"), as amended by the Veterans Auto and Education Improvement Act, allows you to elect to use the following locations for purposes of taxation:

- · The residence or domicile of the member,
- The residence or domicile of the spouse, or
- The permanent duty station of the member.

Servicemembers and spouses are not required to elect the same residence for state tax purposes. No form is required to be filed with the Department of Taxation to make this election; however, you should maintain any records needed to show that the elected state met the requirements of SCRA.

Increase in Standard Deduction

Legislation enacted during the 2023 General Assembly session increased the standard deduction for Taxable Year 2024 from \$8,000 to \$8,500 for single filers and from \$16,000 to \$17,000 for married filers filing jointly. The increase in the standard deduction is scheduled to sunset after Taxable Year 2025 and revert to the standard deduction amounts that applied prior to Taxable Year 2019: \$3,000 for single filers and \$6,000 for married couples filing jointly.

Business Interest Deduction Increase

Effective for taxable years beginning on or after January 1, 2024, the Business Interest Deduction has increased from 30% to 50%.

Credit Changes

The <u>Agricultural Best Management Practices Tax Credit</u> sunset date has been extended from January 1, 2025, to January 1, 2030.

The <u>Conservation Tillage and Precision Agriculture</u> <u>Equipment Tax Credi</u>t sunset date has been extended from January 1, 2026, to January 1, 2030.

The sunset date for the <u>Communities of Opportunity Tax Credit</u> has been extended from January 1, 2025 to January 1, 2026. Several changes have been made to the credit limitations and allocations.

The <u>Firearm Safety Device Tax Credit</u> was expanded to include any device that, when installed on a firearm, is designed to prevent the firearm from being operated without first deactivating the device. Under current law, "firearm safety device" is defined to include only firearm storage devices, such as gun safes, gun cases, and lock boxes.

Effective for taxable years beginning on or after January 1, 2024, the amount of the <u>Land Preservation Tax Credit</u> that may be claimed by each taxpayer, including amounts carried over from prior taxable years, cannot exceed \$20,000.

Several changes were made to the Education Improvement Scholarships Tax Credit program including extension of the sunset date for certain disability-related provisions; increasing the aggregate amount of scholarships that may be provided by all eligible scholarship foundations.

More information about changes to tax credits is provided in the Instructions for 2024 Virginia Schedule CR and on the Department's website at www.tax.virginia.gov.

Reminders

Extension for Filing Income Tax Returns: All taxpayers are granted an automatic 6-month extension of time to file their income tax returns. No application for extension is required; however, any tentative tax due must be paid with an extension voucher, Form 760IP, by the original due date for filing the return.

You can file and pay your tentative tax online using the Department's eForms or Individual Online Services. Payments are made electronically and you may schedule payments to be made on a future date.

Electronic Filing Requirements for Certain Taxpayers: Individuals are required to file and remit payment using an electronic medium if (i) any installment payment of estimated tax exceeds or can reasonably be expected to exceed \$1,500, (ii) any payment made with regard to a return or extension of time to file exceeds \$1,500, or (iii) the taxpayer's estimated total tax liability exceeds \$6,000. If any of the thresholds above apply to you, all future individual income tax payments must be made electronically. This includes all payments for estimated taxes, extensions of time to file, and any other amounts due when a return is filed.

Consumer's Use Tax: If you purchased merchandise by Internet, telephone, or mail, or you purchased any merchandise outside Virginia and paid no sales tax you may be required to pay Consumer's Use Tax. Report the applicable tax on Form 760PY, Line 33.

Litter Tax: Every manufacturer, wholesaler, distributor or retailer of the following products is subject to the Litter Tax.

- · Food for Human or Pet Consumption
- Groceries
- Cigarettes and Tobacco
- · Soft Drinks and Carbonated Waters
- Distilled Spirits, Wine, Beer and Other Malt Beverages
- · Newspaper or Magazines
- Paper Products and Household Paper
- Glass and Metal Containers
- Plastic or Fiber Containers made of Synthetic Material
- Cleaning Agents and Toiletries
- Nondrug Drugstore Sundries
- Motor Vehicle Parts

Businesses become subject to the tax on the first January 1 they are in business. The Litter Tax return, Form 200, and payment of the tax are due on May 1 of each year, for the preceding calendar year.

File and pay your Litter Tax Return online using the Department's eForms. Complete the online version of the Litter Tax Return as you would if you were completing a paper form. Payments are made electronically and you may schedule payments to be made on a future date.

If you are unable to file and pay electronically you may request a waiver. You can obtain the waiver request form at **www.tax.virginia.gov** or by calling **804.367.8037**.

Civil and Criminal Penalties: The civil penalty for filing a false or fraudulent return or for failing or refusing to file any return with intent to evade the tax, is an additional penalty of 100% of the correct tax.

Any individual who willfully fails or refuses to file a return, at the time or times required by law, shall be guilty of a Class 1 misdemeanor. In addition, an individual who makes any false statements on a return, with intent to defraud the Commonwealth, shall be guilty of a Class 6 felony.

Debt Collection: Before issuing any refunds, Virginia law requires the Department to check for any outstanding debt with agencies of the Commonwealth of Virginia, Virginia local governments and the Virginia court system. If any such debt is found, regardless of the type of tax return filed, all or part of your refund may be withheld to help satisfy the debt and the processing of your return will be delayed.

In addition, the Department is authorized to submit eligible state income and business tax debts to the U.S. Department of Treasury Offset Program (TOP). Once a debt is submitted, the U.S. Department of Treasury will withhold or reduce your eligible federal tax refund or federal vendor payment by the amount of your debt. The Internal Revenue Code authorizes this process, known as "offset."

Offset of federal refunds is only one source of funds that the Department of Taxation may use to satisfy an outstanding tax bill. Your state income tax refund and payments from other state agencies may be withheld to satisfy an outstanding tax bill as well.

Because of timing differences in obtaining funds from various sources, it is possible for us to receive funds from more than one source to satisfy the same debt. If this happens, the overpaid amount will be released upon receipt of the funds. You do not need to contact the Department to request your refund.

Direct Deposit: Due to electronic banking rules, the Department will not allow direct deposits to or through foreign financial institutions. Attempting to use direct deposit to transfer funds electronically to a financial institution outside the territorial jurisdiction of the United States will significantly delay your refund. Visit **www.tax.virginia.gov** for details.

Tax-Related Identity Theft: Tax-related identity theft occurs when someone uses your Social Security Number to file a tax return claiming a fraudulent refund. Often, an identity thief will use your Social Security Number to file a return early in the year. You may not be aware that you are a victim until you file your return and learn one already has been filed. We apply stringent scrutiny to all tax returns in an attempt to detect fraudulent tax refunds. If you receive a letter from us asking for additional information to verify that you are the actual taxpayer filing a return, please respond immediately. To make estimated tax payments online, visit www.tax.virginia.gov or file Form 760ES.

If you owe a large amount of tax, you may need to increase the amount of tax withheld or make estimated tax payments during the year.

You may be penalized if you underpaid your estimated tax or did not have enough tax withheld.

Amended Return Filing

When to File

Individuals are required to report to the Department federal adjustments and pay any additional amounts due within one year after the final determination date of such adjustments ("the one-year requirement"). For the purposes of the one-year requirement, the "final determination date" is defined as one of the following:

- If the federal adjustment is the result of an audit or other action by the IRS, the final determination date is defined as the first day on which no federal adjustments arising from that audit or other action remain to be finally determined. For agreements required to be signed by the IRS and the taxpayer, the final determination date is defined as the date on which the last party signed the agreement.
- If the federal adjustment is the result of an audit or other action by the IRS, and the taxpayer filed as a member of a Virginia combined or consolidated return, the final determination date is defined as the first day on which no related federal adjustments arising from that audit remain to be finally determined for the entire group.
- If the federal adjustment results from filing an amended federal return, a federal refund claim, or an administrative adjustment request or if it is a federal adjustment reported

on an amended federal return or other similar report, the final determination date is defined as the day on which the amended return, refund claim, administrative adjustment request, or other similar report was filed.

If you are an owner of a partnership and receive Form 502FED-1, Virginia Partnership-Level Federal Adjustments Report, from the partnership and need to file an amended Virginia return in order to report the distributive share of the partnership-level adjustment, you must enclose a copy of Form 502FED-1 with the amended return.

Any taxpayer filing an amended federal return must also file an amended state return and must pay any additional tax and interest due, if applicable.

More information about the processes and deadlines by which taxpayers are required to report information and pay any associated taxes is available at www.tax.virginia.gov.

If you file an amended return with any other state that results in a change that would affect your Virginia income tax, you must file an amended Virginia tax return within 1 year.

If the change reduces the tax, the Department by law may issue a refund only if the amended return is filed within:

- 3 years from the due date of the original return, including valid filing extensions;
- 1 year from the final determination of the amended federal return or federal change, whichever is later, provided that the allowable refund is not more than the decrease in Virginia tax attributable to the federal change or correction;
- 1 year from the final determination of the amended return
 of any other state or change or correction in the income
 tax of the taxpayer for any other state, provided that the
 refund does not exceed the amount of the decrease in
 Virginia tax attributable to such change or correction;
- 2 years from the filing of an amended Virginia return resulting in the payment of additional tax, provided that the current amended return raises issues relating solely to the prior amended return and that the refund does not exceed the amount of the tax payment made as a result of the prior amended return; or
- 2 years from the payment of an assessment, provided the amended return raises issues relating only to the prior assessment and the refund does not exceed the amount of tax paid on the prior assessment.

Form 760PY

To amend Form 760PY, complete a new Form 760PY (for the taxable year you are amending) using the corrected figures, as if it were the original return. Mark the amended box in the Check Applicable Boxes section of the return. Be sure to select one of the provided reason codes to explain why you are submitting an amended return. Do not make any adjustments to the amended return to show that you received a refund or paid a balance due as a result of the original return.

Use the worksheet for amended returns below to determine if you are due a refund or if any additional tax due should be paid with your amended return.

Worksheet for Amended Returns

1.	Income tax paid with original return, plus additional income tax paid after it was filed1	
2.	Add Line 1 above and Line 26 from the amended Form 760PY and enter the total here2	
3.	Overpayment, if any, as shown on original return or as previously adjusted3	
4.	Subtract Line 3 from Line 2 4	
5.	If Line 4 above is less than Line 18 on amended Form 760PY, subtract Line 4 above from Line 18 on amended Form 760PY. This is the Tax You Owe5	
6.	Refund. If Line 18 on amended Form 760PY is less than Line 4 above, subtract Line 18 on amended Form 760PY from Line 4 above. This is the Tax You Overpaid6	

Additional Required Enclosures

If you filed an amended federal return, enclose a copy of your federal Form 1040X or other claim form and supporting material with your amended Virginia return to substantiate the amendment. If amending your Virginia return for other reasons, enclose a statement explaining why you are amending your return. Show any computations necessary to verify the adjustments you are making. Submit your check or money order with your return if you owe a balance due. Also, include additional Forms W-2, 1099, or VK-1 with your return if claiming more income tax withheld than what was claimed on your original return.

Federal Adjustments

If your federal income tax return was adjusted by the IRS during the taxable year and the adjustment was not reported to the Department, an amended Virginia return must be filed with a copy of the federal adjustments within 1 year after the final determination of such federal change, correction or renegotiation. See "When to File" earlier in this section for additional information.

Net Operating Losses

Although there is no express statutory provision for a separate Virginia net operating loss available for carryback or carryover, the amount of federal net operating loss is the starting point in computing the amount of deduction to be allowed on the Virginia return. Check the amended return box located on the front of Form 760PY, indicating that this is an amended return and enter the reason code to indicate the return is the result of a net operating loss (NOL) carryback. Codes are provided in the Filing Information section on Page 10.

Enclose a complete copy of your federal amended return and the Virginia Modification Worksheet, if applicable.

General instructions for computing the NOL can be obtained from the Virginia Administrative Code (Title 23, Taxation) website at **law.lis.virginia.gov.** Select the link for Virginia Administrative Code and find Title 23 Taxation. Select Agency 10, Department of Taxation and Chapter 110 Individual Income Tax. General instructions are provided in 23VAC10-110-80 and 23VAC10-110-81.

Deceased Taxpayers

- List your name, Social Security Number and Date of Birth first on the return.
- Include your spouse's name, Social Security Number and date of birth in the fields labeled for spouse.
- · Check the "Deceased" box for your spouse.
- Any refund issued will be made payable to the surviving spouse. The refund may be direct deposited.

<u>Single Filers</u>: If you are the court-appointed or certified Personal Representative (also referred to as Executor or Administrator) of the decedent's estate, include a copy of the court certificate showing your appointment with the return.

- Any refund issued will be made payable to the estate of the decedent.
- The refund will be issued as a check. The check may be cashed or deposited with the endorsement of the court-appointed Personal Representative.

<u>Joint Filers</u>, <u>both Taxpayers Deceased</u>: Follow the instructions for Single Filers.

Important: If a refund is due, the refund will be issued in the name of the surviving spouse or the estate of the decedent(s) unless a properly completed copy of federal Form 1310 is provided. When filing electronically, the Form 1310 must be included with the federal filing.

Record Keeping

Keep your tax records for at least 3 years from the due date of the return or the date the return was filed, whichever is later. If the IRS requires you to keep your federal records for a longer period of time, keep your state records for the same period of time.

Filing Requirements

FILING THRESHOLD

Filing requirements are based on your residency status and the amount of your income. Dependents and students are subject to the same filing requirements as anyone else.

- Residents of Virginia with income at or above the minimum filing threshold must file.
- Nonresidents of Virginia with income at or above the filing threshold must file if any of their income is from Virginia sources.

For information on Virginia residency requirements, please read the next section, "Residency Status."

If your Virginia Adjusted Gross Income (VAGI) is at or above the threshold amount shown in the following table, you are required to file. VAGI is the Adjusted Gross Income on your federal return plus any Virginia additions, minus any Virginia subtractions. Information on Virginia additions and subtractions is included in the instructions. later in this booklet.

For a part-year resident, if your income is only from wages, salaries and interest from a savings or checking account, your VAGI is usually the same as the Adjusted Gross Income shown on your federal return less the wages, salaries and interest earned while a nonresident of Virginia. Once you have computed your VAGI, check the chart below to see if you need to file a Virginia income tax return.

You do not have to file if you are:

Single and your VAGI is less than\$11,950

Married filing with your spouse

on the same return and your

combined VAGI is less than\$23,900

Married filing separately (on separate

forms) and your VAGI is less than......\$11,950

If you are not required to file, but you had Virginia income tax withheld or made estimated payments, you are entitled to a refund of the amount withheld or paid. You must file a return to get a refund.

We periodically review and update the Department's records to make sure that we have correct return information. Sometimes, we have to contact taxpayers to confirm that they did not need to file for a given year. As a result, even if you do not need to file a return, you may receive an inquiry at a later date to verify your VAGI.

RESIDENCY STATUS

Residents

Every Virginia resident whose Virginia Adjusted Gross Income is at or above the minimum filing threshold must file. Any "federal area" such as a military or naval reservation, federal agency or federal administration that is inside the geographical boundaries of Virginia is considered a location in Virginia and nonactive duty residents of those areas are subject to Virginia income tax just like residents of any other location in the state.

You may be required to file as a resident in two states if you are an actual resident of one state and a domiciliary resident of another state (see definitions below). If you are in this situation, you may be able to take a credit on the return filed in the state of your legal domicile. Refer to the instructions for the Schedule OSC later in this booklet for more information on the credit for tax paid to another state.

If you are a servicemember serving in compliance with military orders or the spouse of such a servicemember, follow the special rules under "Military Personnel and Spouses of Military Personnel," explained later in this booklet.

Domiciliary Residents

Anyone who maintains a legal domicile (residence) in Virginia, whether living in or out of Virginia, is a domiciliary resident. This includes members of the U.S. armed forces who have Virginia as their home of record. Domiciliary residents have their permanent place of residence in Virginia. Any person who has not abandoned their legal domicile in Virginia and established legal domicile in another state remains a domiciliary resident of Virginia, even if residing in another jurisdiction for a number of years. In determining domicile, the Department considers many factors. Some of the more common indicators of domicile are: voter registration; motor vehicle and personal property registration; business pursuits; expressed intent; conduct; leaseholds and situs of real property owned.

Actual Residents

You are an actual resident if:

You maintained an abode in Virginia or were physically present in Virginia for more than 183 total days during the taxable year, even if you are a domiciliary resident of another state or country.

If you are an *actual* resident of Virginia, you may be required to file as a resident in Virginia and in your domiciliary state. In this situation, you should claim a credit on the return filed in the state of your legal domicile for taxes paid to Virginia.

Students: The rules for determining the residency status of a student are the same as for anyone else.

Special Rules

Members of the U.S. Congress: If you are a member of the U.S. Congress who is a domiciliary (legal) resident of another state, you are not subject to taxation as an actual resident of Virginia even if you maintained an abode in Virginia for more than 183 days. However, if you have income from Virginia sources other than your congressional pay, you may be required to file a Form 763, Nonresident Income Tax Return.

Spouses, Dependents and Congressional Staff Members:

The exemption for members of the U.S. Congress does **not** apply to spouses, dependents or congressional staff members. If you are a spouse or dependent of a member of the U.S. Congress or you are employed by a member of the U.S. Congress, you must determine your own residency status and filing obligations, even if you filed a joint federal return.

Military Personnel and Spouses of Military Personnel:

For Taxable Year 2023 and after, if you are a servicemember serving in compliance with military orders or the spouse of such servicemember, the federal Servicemember Civil Relief Act ("SCRA"), as amended by the Veterans Auto and Education Improvement Act, allows you to elect to use the following locations for purposes of taxation:

- · The residence or domicile of the member,
- · The residence or domicile of the spouse, or
- The permanent duty station of the member.

Servicemembers and spouses are not required to elect the same residence for state tax purposes. No form is required to be filed with the Department of Taxation to make this election;

however, you should maintain any records needed to show that the elected state met the requirements of SCRA.

<u>If you elect a state other than Virginia</u> under SCRA, the following two types of income are exempted from Virginia individual income tax:

- A servicemembers' active duty pay, and
- A spouses' income from Virginia sources for services performed (such as wages received as an employee).

These two types of income will be referred to as "SCRA protected income.

If you had Virginia income tax withheld from your SCRA protected income, you may file Form 763-S, Virginia Special Nonresident Claim for Individual Income Tax Withheld to request a refund. Going forward, you may need to indicate on Form VA-4 that such income is exempt from withholding by checking the line on that Form that references SCRA.

If the servicemember begins or ceases to serve in compliance with military orders during the taxable year you may be required to file Form 760PY, Part-Year Resident Income Tax Return.

Example: A servicemember is present in Virginia on January 1 in compliance with military orders and elects to be a resident of State A for state tax purposes under SCRA. The servicemember separates from the military on May 31 and chooses to remain in Virginia for the remainder of the taxable year. The servicemember would file Form 760PY and list their dates of residence in Virginia for the taxable year from June 1 (the first day they were in Virginia not pursuant to military orders) to December 31 (the end of the taxable year). In addition to filing a Form 760PY for the period from June 1 through December 31, a Form 763 may be required to be filed for the period from January 1 through May 31 if they had certain kinds of income during that time. See below.

If the servicemember marries or divorces during the taxable year and a state other than Virginia is elected under SCRA, a Form 760PY is not required for such year for either the servicemember or their former spouse.

Example: A servicemember is present in Virginia in compliance with the servicemember's military orders for the entirety of Years 1 and 2. The servicemember's residence or domicile under SCRA is Virginia. Similarly, the servicemember's permanent duty station under SCRA is Virginia. The servicemember is married at the beginning of Year 1. The residence or domicile of servicemember's spouse is State A. On August 31 of Year 1, the servicemember and spouse divorce.

The servicemember, the former spouse, or both of them may elect to use State A as their residence for state tax purposes for an entire taxable year under SCRA, so long as they were married at least one day during such year. As a result, if they both elect State A rather than Virginia for Year 1, neither the servicemember nor the former spouse are required to file Form 760PY for such year. However, a Form 763 may be required if they had non-SCRA protected income. Please see below.

In Year 2, the servicemember may no longer elect the residence or domicile of their now-former spouse. Because

the servicemember's residence or domicile under SCRA is Virginia and the servicemember's permanent duty station under SCRA is also Virginia, the servicemember is only choice under SCRA is to elect Virginia. As a result, they must file Form 760 in Year 2.

In Year 2, the former spouse is no longer is covered by SCRA. Consequently, the former spouse may be required to file a Form 760, Form 760PY, or Form 763 depending on their facts and circumstances. Please consult the instructions applicable to those forms that relate to taxpayers not covered by SCRA. If you have income from Virginia sources other than SCRA protected income, you must file Form 763, Nonresident Income Tax Return (see the instructions to Form 763 for more information) to report and pay Virginia income tax on

If you elect Virginia (or are unable to elect a state other than Virginia) under SCRA, you are a Virginia resident and must file Form 760, Resident Income Tax Return. Your SCRA protected income is not exempt from Virginia income tax.

Part-Year Residents

such income.

You may be a part-year resident if your residency in Virginia began or ended during the taxable year. Residents who move into or out of Virginia during the taxable year and do not fall into either category below are generally considered full-year residents.

- Virginia residents who move out of Virginia during the taxable year and become domiciliary residents of another state are part-year residents, provided they do not move back to Virginia for at least 6 months.
- Those who move into Virginia during the taxable year and become either domiciliary or actual residents of Virginia are also considered part-year residents.

The distinction between full-year and part-year residents is important in deciding which form to file and what income is taxable in Virginia. To compute VAGI and determine if VAGI meets the minimum filing threshold, part-year residents who file Form 760PY are allowed a subtraction from federal adjusted gross income equal to the amount of income attributable to residence outside Virginia.

If you are a part-year resident and do not file the correct form, you will not compute the correct amount of tax. See "Which Form To File" below.

Nonresidents

Nonresidents of Virginia with Virginia Adjusted Gross Income at or above the filing threshold must file if any of their income is from Virginia sources. Income from Virginia sources is income received from labor performed, business done, or property located in Virginia, including gains from sales, exchanges or other dispositions of real estate and intangible personal property having a situs in Virginia. Virginia source income includes income passed through from a partnership, S corporation or limited liability company that does business in Virginia. It also includes business income and proceeds from real estate transactions passed through by a Virginia trust. It generally does not include personal savings account interest or dividends from an individual's stock market investments.

Those who maintain legal domicile in another state and live in Virginia less than 183 days of the taxable year (or do not live in Virginia at all) are nonresidents. Also, members of the U.S. armed forces who have another state as their home of record (legal domicile) are generally classified as nonresidents of Virginia, even though they may be stationed in Virginia for years.

Exceptions for Certain Nonresidents

If you are a nonresident of Virginia who commutes daily to work in Virginia from **Kentucky** or the **District of Columbia**, you do not have to file if:

- You have no actual place of abode in Virginia at any time during the year;
- Salaries and wages are your only Virginia source income; and
- Your salaries and wages are subject to income taxation by Kentucky or the District of Columbia.

If you are a nonresident of Virginia who is a resident of **Maryland**, **Pennsylvania**, **or West Virginia** and you earn salaries and wages in Virginia, you are exempt from filing a Virginia income tax return and paying Virginia income tax if:

- Your only income from sources in Virginia is from salaries and wages; and
- Your salaries and wages are subject to income taxation by Maryland, Pennsylvania or West Virginia.

If you are a domiciliary resident of **Kentucky, Maryland, Pennsylvania, West Virginia, or the District of Columbia** and have income from Virginia sources other than wages and salaries, (such as business income or gain from the sale of a residence), you must file a Virginia Nonresident Individual Income Tax Return, Form 763, and pay tax on income not specifically exempted above.

Tax Withheld in Error by Employer: If Virginia tax was withheld from your income in error, you should file Form 763-S to obtain a refund.

If you meet any of the exceptions above and had Virginia withholding, you may need to file Form 763-S, Virginia Special Nonresident Claim For Individual Income Tax Withheld to claim your refund.

WHICH FORM TO FILE

Residents File Form 760

File Form 760 if you are a part-year resident and all of your income came from Virginia sources or was received while you were a Virginia resident. This will allow you to claim the full exemption and standard or itemized deduction instead of computing partial amounts as required for part-year residents filing Form 760PY.

Part-Year Residents File Form 760PY

As a general rule, part-year residents file Form 760PY. If 1 spouse is a full-year resident and the other is a part-year resident, the couple may file together on Form 760PY. The part-year resident spouse will compute a prorated exemption amount. The full-year resident spouse will claim the full exemption amount.

Note: If you are a part-year resident who received Virginia source income, as well as other income, during the portion of the year you lived in another state, you need to file 2 Virginia returns for the taxable year. File Form 760PY to report the income attributable to your period of Virginia residency. File Form 763, the nonresident return, to report the Virginia source income received as a nonresident.

Nonresidents File Form 763

Generally, nonresidents with income from Virginia sources must file a Virginia return if their income is at or above the filing threshold. Nonresidents who earn salaries and wages in Virginia and pay tax on those salaries and wages to the District of Columbia, Kentucky, Maryland, Pennsylvania or West Virginia are not required to file if they meet the criteria described in the previous section under "Exceptions for Certain Nonresidents." Residents of states other than those in "Exceptions for Certain Nonresidents" do not qualify for a filling exception.

Usually, when 1 spouse is a resident and the other spouse is a nonresident, each spouse whose income is at or above the filing threshold must file separately. The resident must file on Form 760. The nonresident spouse must file Form 763. There are only 3 circumstances in which such a couple can file jointly on the same return. If both spouses have income and all of the nonresident's income is Virginia source income, a joint resident return (Form 760) may be filed. If both spouses elect to determine their joint Virginia taxable income as if they were both Virginia residents, a joint resident return may be filed. Also, if the nonresident spouse has no income at all, a joint resident return may be filed.

WHEN TO FILE

If your taxable year is January 1, 2024 - December 31, 2024, your individual income tax return must be postmarked no later than **May 1, 2025**, to avoid late filing penalties and interest.

When filing by mail, the envelope must be postmarked by the due date. Put the correct postage on your envelope. If your return is sent back to you because of insufficient postage, you are liable for the penalties and interest if the postmark on the remailed return is after the due date. Tax returns or payments of taxes remitted by a commercial delivery service will be considered timely filed if received in an envelope or sealed container bearing a confirmation of shipment on or before midnight of the day the return or payment is due.

If the due date falls on a Saturday, Sunday, or legal holiday, you may file your return on the next day that is not a Saturday, Sunday, or legal holiday.

Fiscal Year Filers

If your taxable year is not January 1 through December 31, your return must be postmarked by the 15th day of the 4th month following the close of your fiscal year.

When filing by paper, you should write "FISCAL YEAR FILER" across the top of page 1 of Form 760PY and enclose a statement indicating the beginning and ending months of your 12-month fiscal year. If you file after the due date or do not pay the full amount due by the due date, you may have to pay penalties and interest.

Overseas Rule

If you are living or traveling outside the United States or Puerto Rico (including persons in the military or naval service on duty outside the United States and Puerto Rico), you must file your return by **July 1, 2025**. Be sure to check the appropriate box to the left of the name and address section.

Members of the Military: Members of the armed forces serving in a combat zone receive either the same individual income tax filing and payment extensions as those granted to them by the IRS, plus an additional 15 days, or a 1-year extension, whichever date is later. All extensions also apply to spouses of military personnel. Service families may wish, however, to file their individual income tax returns before the extended deadlines to receive refunds. Servicemembers claiming this extension should write "Combat Zone" across the top of their tax returns and on the envelopes used to mail their returns. Such combat zone personnel should similarly write "Combat Zone" across the top of their correspondence, and on the envelope used to mail the correspondence,

when responding to any notices issued by the Department regarding tax collection or examination. See Tax Bulletin 05-5, available in the Laws, Rules, & Decisions Section of the website at www.tax.virginia.gov.

In addition, every member of the armed services <u>deployed</u> outside of the United States is allowed an extension of their due date. The extension will expire 90 days following the completion of deployment. Servicemembers who claim this extension should write "Overseas Noncombat" on the top of their tax returns.

Extension Requests

Virginia law provides an automatic 6-month filing extension for income tax returns. No application for extension is required. The extension is for filing the return, not for payment of the tax; therefore, you must pay at least 90% of your tax by the due date, May 1 for calendar year filers. To make a payment of tentative tax, use Form 760IP.

If you file your return within 6 months after the due date but do not meet the 90% payment requirement, an extension penalty of 2% per month will apply to the balance of tax due with your return from the due date through the date your return is filed, to a maximum of 12% of the tax due. Interest will also accrue on any balance of tax due with a return filed within the extension period, regardless of whether the 90% payment requirement is met.

If you file your return within 6 months after the due date but do not pay the tax due at the time of filing, the unpaid balance will be subject to a late payment penalty of 6% per month from the date of filing through the date of payment, up to a maximum of 30%. The late payment penalty will be assessed in addition to any extension penalty that may apply. The automatic extension provisions apply only to returns that are filed within 6 months from the due date. If you file your return more than 6 months after the due date, a late filing penalty of 30% will apply to the balance of tax due with your return.

Refund Returns: You do not need to file an extension if you cannot file by the due date and you are certain that your return will result in a refund. This is because the late filing penalty is not assessed on refund returns. To receive a refund, however, you must file within 3 years of the due date.

Foreign Income Exclusion: If you qualify for the federal foreign income exclusion and have requested an extension of time for filing your federal return, you may apply for an extension of time to file your state return. You will be granted an extension for 30 days after the date you expect to qualify for the exclusion. You must apply by letter on or before the 1st day of the 7th month following the close of your taxable year and enclose a copy of the approved federal extension with your return when you file.

WHERE TO FILE

You can file your return online or mail your return. Visit **www.tax.virginia.gov** for information about using e-File. To file by mail, use the mailing address listed beginning on Page 49 for the city or county where you live or last lived while a resident of Virginia. Returns can be filed directly with the Department.

BALANCE DUE RETURNS

You can pay by credit card or online, and most taxpayers also have the option to pay by check. See the "Payment Options" section on Page 16 of these instructions for more details. If you can pay by check and choose to do so, make your check payable to the Treasurer of the city or county in which you reside. Make sure your Social Security Number is on your check and make a notation that it is your 2024 income tax payment.

To pay by credit card, visit **www.tax.virginia.gov/payments** to pay on the Internet. If you choose this option, fill in the box on Line 35 of Form 760PY, indicating this type of payment. You will be assessed a fee by the company processing the transaction.

Make an online payment from your checking or savings account for balance due returns using Web Payments at www.tax.virginia.gov.

If you have already filed your return with your Local Commissioner of the Revenue and did not indicate you were paying by credit card, call your Local Commissioner of the Revenue's office for the correct jurisdiction code prior to initiating your credit card payment. Phone numbers are listed beginning on Page 49.

Compute Your Lowest Tax (Tip for Married Taxpayers)

Since Virginia's individual income tax is imposed at graduated rates, a couple with income attributable to each spouse may find that by using Filing Status 2 (filing a joint return), their joint income is taxed at a higher rate than their separate taxable incomes would be. Filing Status 4 (married filing a combined return), is designed to adjust for this difference. When using Filing Status 4, tax is computed on each spouse's separate taxable income and then the two amounts of tax are added together to arrive at their total tax. As a general rule, when both spouses have income, Filing Status 4 will enable you to obtain the lowest combined tax provided that you assign deductions and dependents to each spouse so that the taxable income in each column on Form 760PY is as close to equal as possible.

If only one spouse has income or if one spouse's income would be reduced to zero (or less) after claiming personal exemptions and subtractions, use Filing Status 2 instead.

The information is shared with DMAS and VDSS for purposes of affirming that the individual, spouse, or any dependents meet the income eligibility requirements for medical assistance. The information is shared with the Virginia Health Benefit Exchange for those persons who do not meet the income eligibility requirement for medical

assistance and would like to determine eligibility for health coverage through Virginia's Insurance Marketplace. If the individual or spouse voluntarily consents, the Department is authorized to disclose to DMAS, VDSS and the Virginia Health Benefit Exchange certain dependent information and the individual's or spouse's:

- · Name;
- · Address;
- · Social Security number;
- · Date of birth;
- Number and type of personal exemptions;
- Tax-filing status; and
- · Adjusted gross income

The Department is only authorized to disclose information to DMAS, VDSS and the Virginia Health Benefit Exchange upon entering a written agreement regarding the disclosure of taxpayer information.

If you would like for the Department of Taxation to disclose certain information to DMAS, VDSS and the Virginia Health Benefit Exchange for the purposes set forth above, check the box on Page 1 of Form 760PY. Also complete Schedule HCI (Healthcare Information) and enclose with your return.

FILING STATUS

Enter the correct number in the box to identify your filing status. In most cases, your filing status will be the same as the one you selected on your federal return.

Filing Status 1: Single

Use this filing status if you claimed one of the following federal filing statuses on your federal return: Single, Head of Household, or Qualifying Widow(er)/Qualifying Surviving Spouse. If you claimed the Head of Household filing status on your federal return, check the "Single" filing status box and the "Head of Household" box.

Filing Status 2: Married, Filing Joint Return

You and your spouse may choose to file a joint return if (a) you computed your federal income tax liabilities together on a joint federal return, or (b) neither you nor your spouse was required to file a federal return. You may claim this filing status even if your spouse has no income. When filing a joint return, your spouse's exemption is included in the "You" column. Do not claim your spouse as a dependent.

If both spouses have income, filing a combined return (Filing Status 4) may result in a lower balance due or a greater refund than a joint return (Filing Status 2).

Filing Status 3: Married, Filing Separate Return

If you and your spouse filed separate federal returns, you can file separate state tax returns or you can choose to file a combined return (Filing Status 4). Generally, if you filed a joint federal return and only one spouse is a Virginia resident, the Virginia resident must file a separate Virginia return unless both spouses elect to determine their joint Virginia taxable income as if they were both Virginia residents. When you file separate returns in Virginia, you must report your federal adjusted gross income, exemptions and deductions on your Virginia return as if you had filed separate federal returns. Federal rules must be applied to determine the exemptions and itemized deductions allowed when filing separate returns.

If one spouse claims itemized deductions, the other spouse must also claim itemized deductions.

If the number of dependent exemptions or the amount of itemized deductions cannot be accounted for separately, they must be proportionately allocated between each spouse based on each spouse's income (e.g., federal adjusted gross income).

Be sure to enter your spouse's name on the line provided in the Filing Status section and your spouse's Social Security Number in the name and address section of the return.

Filing Status 4: Married, Filing Separately on This Combined Return

You can use this filing status if both you and your spouse had income, regardless of whether you filed jointly or separately for federal purposes. When both spouses have income, this filing status usually enables a couple to compute a lower tax than filing a joint return (Filing Status 2). If you choose Filing Status 4, you are jointly and severally liable for the amount of tax due and any refunds will be made jointly payable.

Since Virginia's income tax is imposed at graduated rates, a couple with income attributable to each spouse may find that by using Filing Status 2, their joint income is taxed at a higher rate than their separate incomes would be. Filing Status 4 is designed to adjust for this difference. Filing Status 4 allows a couple to compute a combined tax by reporting income for each spouse separately and then allocating dependent exemptions and deductions as mutually agreed. Tax is computed on each spouse's separate taxable income and then the 2 amounts of tax are added together to determine their total tax.

Use Filing Status 2 instead of Filing Status 4 if only 1 spouse had income or if 1 spouse's income would be reduced to zero or less after claiming personal exemptions and subtractions.

When using Filing Status 4, each spouse must claim their own income, personal exemptions and, if allowable, any additional exemption for age or blindness. The number of dependent exemptions may be allocated between spouses as you mutually agree. Each spouse has a separate exemption line.

EXEMPTIONS

Enter the number of exemptions you are allowed in the appropriate boxes. If filing a joint return (Filing Status 2), enter the number for both spouses combined in the boxes in Column A. Use the exemption information when completing Line 13.

Dependents: Generally, you may claim the same number of dependent exemptions allowed on your federal return. If you are using Filing Status 3 or 4, see the Filing Status instructions in the previous section for the rules on claiming dependents. You may never claim less than a whole exemption. The same dependent may not be claimed on separate returns.

65 or Over: To qualify for this additional personal exemption, you must have been age 65 or older on or before January 1, 2025.

Blind:To qualify for the additional personal exemption for the blind, you must have been considered blind for federal income tax purposes.

How To Enter Numbers

Use the Correct Column: Enter numbers in Column Aif you are using Filing Status 1, 2, or 3. Enter numbers in Columns A and B only if you are using Filing Status 4. When using Filing Status 4, make sure the information in Column Aapplies to the name and Social Security Number listed first on the return. Column B is for your spouse.

Round to Whole Dollars: To improve accuracy of return preparation and speed the processing of your return, all amount entries on your return must be rounded to the nearest dollar. Amounts of 1 cent to 50 cents are to be rounded down while all amounts 51 cents to 99 cents are to be rounded up.

Negative Numbers: Enter negative numbers (numbers less than 0) in brackets. For example, if your federal adjusted gross income was negative 12,000, enter this as [12,000].

Date of Birth

Please be sure to provide this information. It is used to assist in the verification of taxpayer identity. If you are filing a joint return, enter your date of birth and your spouse's date of birth in the same order as your names and Social Security Numbers.

Line 1 Adjusted Gross Income

The Virginia Schedule of Income *must* be completed before you make an entry on Line 1. Complete the Virginia Schedule of Income, Part 1, Lines 1 through 9, then enter the total amount of federal adjusted gross income on Line 1 as follows. The instructions for the Virginia Schedule of Income are on Page 18. Enclose the completed Virginia Schedule of Income with your return.

Filing Status 1, 2 or 3

Enter the amount from Schedule of Income, Part 1, Line 7, Column A1, on Line 1, Column A.

Filing Status 4

Enter the amount from Schedule of Income, Part 1, Line 7, Column B1, on Line 1, Column B, and enter the amount from Line 7, Column A1, on Line 1, Column A. When using Filing Status 4, the total of Column A and Column B on Line 1 *must* equal the total federal adjusted gross income on your federal return.

Line 2 Additions

If you reported any additions on Virginia Schedule 760PY ADJ, enter the total amount from Line 3 of Schedule 760PY ADJ.

Line 4 Qualifying Age Deduction

Enter your birth date in the boxes above Line 1 on Page 1. If filing status 2, 3, or 4 enter birth date for both you and spouse. If filing status 4, enter **your** age deduction on Line 4a, Column A and the deduction for **spouse** on Line 4b, Column B. Otherwise, claim Your Age Deduction on Line 4a, Column A and Spouse's on Line 4b, Column A.

If claiming an Age Deduction, see the Age Deduction instructions on Page 32 and complete the Age Deduction Worksheet on Page 33 in order to calculate the Qualifying Age Deduction.

Line 5 Social Security Act and Equivalent Tier Railroad Retirement Act Benefits

Enter Social Security and equivalent Tier 1 Railroad Retirement Act benefits reported as taxable income on your federal return and attributable to your period of residence in Virginia.

Do not include Tier 2 Railroad Retirement Benefits and Other Railroad Retirement and Railroad Unemployment Benefits. See instructions for Schedule 760PY ADJ to determine if these benefits can be included as other subtractions.

Line 6 State Tax Refund or Overpayment Credit Reported as Income on Federal Return

Enter the amount of any state income tax refund or overpayment credit reported as income on your federal income tax return and received while a resident of Virginia (claim in the same column as the income was reported on Line 6 on the front of the Virginia return).

State, local, or foreign income taxes withheld from your salary, estimated tax payments, or payments made on tax for a prior year to such taxing authority may be deducted on your federal return for the year withheld or paid. The federal deduction is for the amount paid rather than the tax liability, so a refund or credit is generally treated as taxable income (a recovery of an excessive deduction) on the federal return. Since Virginia does not allow the state and local income tax deduction, a federally taxable refund or overpayment credit is to be deducted from federal adjusted gross income on the Virginia return.

Line 7 Income Attributable to Your Period of Residence Outside Virginia

Enter the amount from the Virginia Schedule of Income, Part 1, Line 9, Column A3, in Column A. Enter the amount from Part 1, Line 9, Column B3, in Column B.

If you claim this subtraction, you cannot claim a credit for tax paid to another state on the same income.

Line 8 Subtractions

If you reported any subtractions on Virginia Schedule 760PY ADJ, enter the total amount from Line 7 of Schedule 760PY ADJ.

Line 10 Virginia Adjusted Gross Income

Deduct Line 9 from Line 3 and enter the result.

To claim a refund in these cases:

- Complete Lines 11 through 16 and enter "0.00" as your tax on Lines 17 and 18.
- · Complete Lines 19a through 36.

Filing Status	Filing Threshold
1. Single	\$11,950
2. Married, filing jointly	\$23,900
3. Married, filing separately	\$11,950
4. Married, filing combined return*	· \$23,900

^{*} When filing a combined return, compare the threshold to the total of Columns A and B, Line 10.

DEDUCTIONS

Claiming Deductions When Filing a Combined Return: If you are filing a combined return (Filing Status 4), you can allocate deductions and dependents between spouses as you choose. As a general rule, you can lower your combined

tax by assigning deductions and dependents to each spouse so that the taxable incomes in Columns A and B are as close to equal as possible. The deductions and dependents which can be allocated are on Lines 12, 13 and 14.

Line 11 Itemized Deductions

Enter the itemized deductions paid while a Virginia resident on Virginia Schedule A. Enclose Virginia Schedule A with your return.

You must claim the same type of deductions (standard or itemized) on the Virginia return as claimed on your federal return. If a joint federal return was filed and you are filing separate returns in Virginia (Filing Status 3), and claiming itemized deductions, itemized deductions that cannot be accounted for separately must be allocated proportionately between spouses based on each spouse's share of the federal adjusted gross income.

If you claimed itemized deductions, enter the amount from Line 19 of the Virginia Schedule A and enclose this schedule with your return. See the Virginia Schedule A instructions for more information.

Virginia Itemized Deductions

If you claimed itemized deductions on your federal income tax return, you must claim itemized deductions on your Virginia income tax return. Enclose a copy of your federal return, including Schedule A.

State and local income tax claimed as an itemized deduction on your federal return is not allowed as a Virginia deduction.

Your allowable itemized deductions on Virginia Schedule A are expenses for which payment was made while you were a Virginia resident. When a deduction is subject to a limitation based upon a measure of income, compute the limitation based only upon your income attributable to your period of Virginia residence, not your income for the entire taxable year.

Line 12 Virginia Deductions

The copy of your federal income tax return enclosed with Form 760PY must include the Schedule A. If you are not claiming itemized deductions, enter the amount from Line 5 of the Standard Deductions Worksheet.

If you did not claim itemized deductions on your federal income tax return, you must claim the standard deduction on your Virginia income tax return. Your allowable standard deduction on Form 760PY will be prorated based on the portion of your federal adjusted gross income that was received while a resident of Virginia.

Standard Deductions Worksheet

1	Enter the federal adjusted gross income (Total Part 1, Line 9, Columns A1 and B1 from Schedule of Income).	
2	Enter the income attributable to your period of Virginia residence (Total Part 1, Line 9, Columns A2 and B2 from Schedule of Income).	
3	Divide the amount on Line 2 by the amount on Line 1 and report as a percentage, not to exceed 100%. Example: 0.3163 becomes 31.6%.	

	If using Filing Status 1, enter \$8,000. If using Filing Status 2 or 4, enter \$16,000. If using Filing Status 3, enter \$8,000.		
5	Multiply Line 3 by Line 4. Enter here and on Line 12, Form 760PY.		

When using Filing Status 4, the standard deduction may be allocated between each spouse as you mutually agree. As a general rule, you can lower your combined tax by assigning deductions (Lines 12 and 14) and dependents (Line 13) to each spouse so that the taxable incomes in Columns A and B are as close to equal as possible.

Exception: Dependent's Limited Standard Deduction

If you could be claimed as a dependent on the federal income tax return of another taxpayer, your allowable standard deduction may not exceed the amount of your earned income. This rule applies to dependents of all ages, including children under age 19 and full-time students under 24 years old who are eligible to be claimed as a dependent on their parent's return.

Remember to check the box on the front of Form 760PY if you can be claimed as a dependent on another's return. Your maximum standard deduction is the *lesser* of EARNED INCOME; or

- 1. \$8,500 if you are single (Filing Status 1)
- 2. \$17,000 if you are married and file a joint or combined return (Filing Status 2 or 4)
- 3. \$8,500 if you are filing a separate return from your spouse (Filing Status 3)

EXAMPLE: (Standard Deduction Limited):

A person (claimed as a dependent on another's return) moved to Virginia on June 25, 2024. Before moving to Virginia he had unearned income of \$5,000 in another state. While in Virginia he had interest income from a bank account (unearned income) of \$4,200 and income from a summer job of \$1,200 (earned income).

This person's limited standard deduction to be entered on Line 12 is \$622.80 which should be rounded to \$623.

Using the Standard Deductions Worksheet, the limited standard deduction is computed by multiplying the maximum limited standard deduction on Line 4, which is \$1,200 of earned income, by the percentage on Line 3, which would be 51.9%. Line 4 is \$1,200 because the \$1,200 of earned income is less than the \$8,000 standard deduction for a single taxpayer.

NOTE: The return of a taxpayer claiming a child (or other person) as a dependent is not affected if the child is required to claim a limited standard deduction.

Line 13 Exemption Amount

The total exemption amount is the prorated number of exemptions claimed, based on the portion of the year you resided in Virginia. Complete the Prorated Exemption Worksheet in Part 2 of the Virginia Schedule of Income to compute your allowable personal and dependent exemptions. Instructions for the Virginia Schedule of Income begin on Page 18.

Line 24 Credit for Tax Paid to Another State

Generally, Virginia will allow taxpayers filing resident individual income tax returns to claim credit for income tax paid as a nonresident to another state on earned or business income derived from sources outside Virginia or any gain (if included in federal adjusted gross income) on the sale of a capital asset outside Virginia, provided the income is taxed by Virginia as well as the other state.

If you are eligible, calculate the credit by completing Schedule OSC. Enter on Line 24 the credit amount from Schedule OSC, Line 21. Instructions for Schedule OSC are on Page 35.

Line 25 Credits from Schedule CR

Complete **Schedule CR** and enclose it with your return to claim the following tax credits. For some credits, other Virginia forms are also required. To obtain Schedule CR, Schedule CR Instructions and these other credit forms, see Page 3.

Enter the total adjustments from Schedule 760PY ADJ, Line 21.

If you leave Line 32 blank, the Department will compute the addition to tax, penalty and interest for you and then send you a bill, if applicable. If your income varied during the year, however, you may be entitled to a lower addition to tax than what the Department would automatically compute. In such cases, you should complete Form 760C to show when the income was received and what the addition to tax should be.

Check the box and enclose Form 760C or Form 760F (for Farmers, Fishermen or Merchant Seamen) even if you computed no addition to tax/or if you are claiming one of the exceptions that voids the addition to tax.

Line 33 Sales and Use Tax (Consumer's Use Tax)

If you purchased merchandise from retailers without paying sales tax you must pay the sales tax directly to the Department. When retail sellers do not collect sales tax, it becomes the purchaser's responsibility to pay the sales tax (i.e., consumer's use tax). Report any sales tax you owe on your return. If you do not owe sales tax, check the corresponding box on your form.

Taxable Purchases

In general, the Virginia sales and use tax applies to all purchases, leases, or rentals of tangible personal property. Regardless of the source of the purchase, if you were not charged sales tax and your purchases are shipped or brought into Virginia, you are required to pay the use tax. This includes purchases made through websites, shopping networks, mail order catalogs, and any out-of-state retailers. Taxable items include, but are not limited to, food, furniture, carpets, clothing, linens, appliances, computers, books, CDs, DVDs, artwork,

antiques and jewelry. Separately stated shipping and delivery charges are not taxable, but "handling" and any combined "shipping and handling" charges are taxable. Nonprescription drugs and proprietary medicines purchased for the cure, mitigation, treatment, or prevention of disease in human beings are exempt from the tax.

Line 35 Amount You Owe

If You Owe Tax on Line 27, add Line 27 and Line 34.

—OR—

If Line 28 is an OVERPAYMENT and Line 34 is LARGER THAN Line 28, deduct Line 28 from Line 34.

This is the amount you owe. The amount you owe must be paid in full at the time of filing your return.

PAYMENT OPTIONS

If your bank does not honor your payment, the Department may impose a penalty of \$35, as authorized by Va. Code § 2.2-614.1. This penalty will be assessed in addition to any other penalties, such as the penalty for late payment of tax.

The fastest and easiest way to make your payments is to file and pay online with VATAX Online Services for Individuals

or with eForms. Payments are made electronically and you may schedule payments to be made on a future date. An electronic return payment can also be made through e-File.

You must submit your payment electronically if:

- any installment payment of estimated tax exceeded \$1,500;
- any payment made with regard to a return or an extension of time to file exceeded \$1,500; or
- the total estimated income tax due for any taxable year exceeded \$6,000.

If you are not required to submit payments electronically, you have the option to pay by check.

Check: If you file your return locally, make your check payable to the Treasurer or Director of Finance of the city or county in which you reside; otherwise, make your check payable to the Department of Taxation. See the listing of localities beginning on Page 49.

Make sure your Social Security Number is on your check and make a notation that it is your 2024 Virginia income tax payment. **Submit your check with the return.**

Credit Card: If you file your return locally, call your Commissioner of the Revenue for instructions on how to pay. Phone numbers are listed beginning on Page 49.

If you file electronically or mail your return directly to the Department of Taxation, visit **www.tax.virginia.gov/payments** to pay on the Internet. The company processing the transaction will assess an additional fee. Prior to payment, you will be informed of the fee and will have the option to cancel the transaction at that time with no charge.

After you complete the transaction be sure to check the box on **Line 35** indicating that you have arranged for a credit or debit card payment.

Online: Make an online payment from your checking or savings account for balance due returns using Web Payments at **www.tax.virginia.gov.**

Line 36 Amount to Be Refunded to You

If Line 28 is larger than Line 34, deduct Line 34 from Line 28 and enter the amount to be refunded.

You no longer have the option of requesting a debit card. If you do not complete the Direct Deposit section, you authorize the Department to issue you a refund check.

REFUND OPTIONS

The Commonwealth of Virginia will no longer issue individual income tax refunds through debit cards.

Get Your Refund Faster With Direct Deposit: Have your refund deposited directly into your bank account.

Fill in the bank account information and indicate whether the account number is for a checking or savings account.

Due to electronic banking rules, the Department will not allow direct deposits to or through foreign financial institutions. Attempting to use direct deposit to transfer funds electronically to a financial institution outside the territorial jurisdiction of the United States will significantly delay your refund. Visit www.tax.virginia.gov for details.

Bank Routing Number: Enter your bank's 9-digit routing transit number printed on the bottom of your check. The first

2 digits of the routing number must be 01 through 12 or 21 through 32. Do not use a deposit slip to verify the number. It may contain internal routing numbers that are not part of the actual routing number.

Bank Account Number: Enter your bank account number up to 17 digits. Do not enter hyphens, spaces or special symbols. *Do not include the check number.*

If you prefer to have a refund check mailed to you, or if the destination of the funds is outside the territorial jurisdiction of the United States, do not complete the Direct Bank Deposit information.

Authorization to Discuss with Preparer

 I (we) authorize the Department of Taxation to discuss this return with my (our) preparer. Check this box if you would like to give the Department authorization to discuss your return information with your tax preparer.

Electronic Form 1099-G

At the bottom of the return above the signature area, a check box is provided for you to indicate that you agree to receive your statement of refund (Form 1099-G) electronically instead of receiving a copy by mail. Paper copies of these statements will be mailed to taxpayers who do not opt into the electronic delivery method. If you previously selected the electronic delivery method and decide to change, submit a written request to the Department using the contact information on Page 3 of this booklet. Form 1099-G/1099-INT is an informational statement issued by the Department in January of each year to report payments made or credited to taxpayers during the previous calendar year. The statement is also provided to those who receive interest payments of \$10 or more during the year. These statements must be used in preparing federal returns by taxpayers who itemize deductions. Form 1099-G/1099-INT may be downloaded securely and printed from the website at www.tax.virginia.gov.

Sign Your Return

Be sure to sign and date your return. If filing jointly, both spouses must sign the return. In so doing, you agree that filing jointly on this return makes you jointly and severally liable for the tax due and any refunds will be paid jointly.

Tax Preparer Information

If you paid someone to prepare your return, the preparer should provide their contact information in the spaces provided.

Phone Numbers

Enter phone numbers in the space provided.

Preparer's PTIN, Vendor Code and Filing Election Code

For taxable years beginning on or after January 1, 2019, an income tax return preparer who has the primary responsibility for the overall substantive accuracy of the preparation of a return or claim for refund is required to include their Preparer Tax Identification Number (PTIN) on such return.

For returns completed by a paid preparer, the tax preparer should complete these fields. Use one of the codes below to complete the Filing Election Code field.

Code 2 Taxpayer opted out of electronic filing.

Code 3 Preparer prepares less than 50 returns annually.

- **Code 4** Preparer capable of electronic filing, but return cannot be accepted electronically.
- Code 5 Preparer has a hardship waiver.
- **Code 6** Preparer capable of electronic filing, but not yet approved as electronic return originator by IRS.

ID Theft PIN

If we are notified that your personal information has been compromised, we may assign you a 7-character personal identification number or PIN to be used on your Virginia income tax return. We mail new PINs to eligible taxpayers each year in November or early December. You do not need to request a new one each year, we will send it automatically. Your PIN is only active for the calendar year for which it was assigned. Use your calendar year 2025 PIN on your 2024 individual tax return filed in 2025. If you also submit your 2023 return in 2025, you should use the same Virginia PIN on that return as well. Do not use an expired PIN or a PIN assigned by the IRS. While most taxpayers do not receive a Virginia PIN, if you are issued a Virginia PIN include all alphabetical and numerical characters on your return. If you received a Virginia PIN and cannot locate it, call 804.367.8031 for a replacement.

Schedule Of Income Line Instructions

Part 1 Income Distribution

Your return will not be accepted as complete unless Part 1 is completed. The purpose of the Income Distribution section of the Virginia Schedule of Income is to allocate the items that constitute federal adjusted gross income between Virginia and another state. Column 1, Lines 1-9, is an abridged version of federal Form 1040. Use Lines 1-3 to report all income. Use Line 5 to report all moving expenses included as adjustments to total income on the federal return. Use Line 6 to report all other adjustments to total income on the federal return. The sum of Line 7, Columns A1 and B1 must equal the federal adjusted gross income on your federal return. Base the allocation on where you were a resident when you received the income or paid the expense.

Note: If claiming Filing Status 4, complete both the "A" and "B" sections of the schedule. For all other filing statuses, complete only the "A" section. References to Column 1, 2, or 3 mean Column A1, A2, or A3 (or B1, B2, or B3).

Part 2 Prorated Exemption Worksheet

The prorated exemptions worksheet is used to reduce your personal and dependent exemptions to an amount which is proportional to the number of days you resided in Virginia during the taxable year. For example, if you are single, claim no dependents and moved to Virginia on July 1, your prorated Virginia personal exemption is computed as follows:

Prorated Virginia Personal Exemption

\$930 (One personal exemption)

X.504 (Ratio Schedule factor for July 1 move to Virginia) \$468.72 (Be sure to round to \$469.00)

Each spouse must compute their own prorated personal exemptions based on the number of exemptions claimed in

the Exemption Section. Use the separate exemption amounts for "you" and your "spouse" when completing Lines 1-11 of the Prorated Exemption Worksheet in Part 2 of the Schedule of Income. Enter in the appropriate column on Form 760PY, Line 13. If claiming Filing Status 2, the combined exemption amount for you and spouse should be entered on Form 760PY, Line 13, Column A.

Exception

If 100% of your federal adjusted gross income was earned while you were a Virginia resident, you do not have to prorate your personal exemptions. If you are married, each spouse's personal exemption is prorated separately based on that spouse's period of residence in Virginia. However, if 100% of either spouse's income is from Virginia sources, that spouse's personal exemption does not have to be prorated.

If you moved into and out of Virginia during the year (or vice versa), base the proration on the total number of days that you were a Virginia resident.

When using Filing Status 3, if the number of exemptions cannot be accounted for separately, they *must* be proportionately allocated between each spouse based upon each spouse's income.

Part 3 Moving Information

If you moved into Virginia during the year, enter your prior state or foreign country of residence. If you are filing a joint return, also enter the prior state or foreign country of residence for your spouse.

If you moved out of Virginia during the year, enter the state or foreign country to which you moved. If you are filing a joint return, also enter the state or foreign country to which your spouse moved.

Schedule 760PY ADJ Line Instructions

CONFORMITY UPDATE FOR 2024

Effective for taxable years beginning January 1, 2023, Virginia will conform to the Internal Revenue Code (IRC) on a rolling basis, including any federal extenders, subject to certain exceptions. This allows Virginia to conform to federal tax changes to the IRC as soon as they are enacted by Congress. This also allows Virginia to conform to the Inflation Reduction Act and the Consolidated Appropriations Act of 2023. Conformity refers to how closely Virginia follows definitions and other provisions of the federal tax code, including the definition of income. The 2023 General Assembly passed legislation that conforms Virginia's tax law to the federal tax code on a rolling basis, with certain exceptions. The legislation also sets guidelines for future federal law changes and their impact on Virginia returns.

For additional information regarding Virginia's conformity with the IRC and adjustments that may be required as a result of conformity legislation, visit www.tax.virginia.gov.

Virginia will continue to deconform from the following: bonus depreciation allowed for certain assets under federal law; the five-year carryback of certain federal net operating loss (NOL) deductions generated in the 2008 or 2009 taxable years; the federal income treatment of applicable high yield discount obligations; and the federal income tax treatment of cancellation

of debt income realized in connection with certain business debts. In addition, Virginia will continue to deconform from the following temporary changes made by the Coronavirus Aid, Relief, and Economic Security ("CARES") Act: suspension of certain NOL limitations for Taxable Years 2018, 2019, and 2020 and increasing the business interest limitation for Taxable Year 2019 and 2020. See Tax Bulletin 21-4 for more information.

- summarizes the prorations between exempt and taxable dividends (monthly breakdown is preferred).

A typical situation would involve a mutual fund that invests in bonds of several states, including Virginia. If the military basic pay does not exceed \$15,000, then the entire amount may be subtracted. If the basic military pay is over \$15,000, then the subtraction is reduced by the amount exceeding \$15,000. For every \$1 of income over \$15,000, the maximum subtraction is reduced by

\$1. If your basic military pay is \$30,000 or more, you are not entitled to a subtraction. On joint returns, each spouse can qualify for the subtraction. If you claim this subtraction, you cannot claim a Credit for Low-Income Individuals or Virginia Earned Income Credit.

The death benefit subtraction is not permitted for payments from a retirement plan.

51 Gains from Land Preservation

This is a subtraction for federal gain or federal income recognized by a taxpayer on the application of a land preservation tax while a Virginia resident. To the extent a taxpayer's federal return includes gain or loss recognized on the sale or transfer of a Land Preservation Tax Credit, the taxpayer is required to subtract the gain or add back the loss on the Virginia return.

52 Certain Long-Term Capital Gains

Provided the long-term capital gain or investment services partnership income is attributable to an investment in a "qualified business" as defined in Va. Code §58.1-339.4 or any other technology business approved by the appropriate Secretariat, it may be

allowed as a subtraction. Under current law, Secretary of Administration is the Secretariat charged with this approval. The business must have its principal facility in Virginia and less than \$3 million in annual revenues for the fiscal year preceding the investment. The investment must be made between the dates of April 1, 2010, and June 30, 2020. Taxpayers claiming the Qualified Equity and Subordinated Debt Credit cannot claim this subtraction relating to investments in the same business. 54 First-Time Home Buyer Savings Accounts

To the extent included in federal adjusted gross income, an individual may subtract any income attributable to a first-time home buyer savings account that was taxed as interest, capital gains, or other income for federal income tax purposes. Distributions from a first-time home buyer savings account may only be used for the purpose of paying or reimbursing the down payment and allowable closing costs for the purchase of a singlefamily residence in Virginia by a qualified beneficiary. The subtractions claimed by an account holder in all prior taxable years are subject to recapture in the taxable year in which account funds are withdrawn for any other purpose even if the withdrawal occurred after the expiration of Virginia's three-year statute of limitations. To claim the subtraction, an individual must designate an account as a first-time home buyer savings account. An individual may designate an account by submitting an enclosure with their Virginia income tax return for the first taxable year in which such individual claims the subtraction. An individual must submit separate documentation or each account that he or she is designating. The documentation must include the following information:

- The name and address of the financial institution that maintains the account;
- The names of any other individuals with an ownership interest in the account;
- The account number or other account identifier;

If an account holder has designated more than one existing first-time home buyer savings account, the account

holder is required to submit separate documentation with updated information for each account. More information is available in the First-Time Home Buyer Savings Account Guidelines, which are available in the Laws, Rules & Decisions section at www.tax.virginia.gov.

55 Discharge of Student Loan

Effective for taxable years beginning on and after January 1, 2015, a subtraction is allowed for income attributable to the discharge of a student loan due to the student's death. For purposes of this subtraction, "student loan" means the same as the term is defined under IRC § 108(f). This is a loan to an individual to assist that individual in attending an educational organization that was made by:

- The United States, or an instrumentality or agency thereof;
- A state, territory, or possession of the United States, or the District of Columbia, or any political subdivision thereof;
- Certain tax-exempt public benefit corporations that have assumed control over a state, county, or municipal hospital and whose employees are deemed public employees under state law;
- Charitable educational organizations, if the loan was made: pursuant to an agreement with one of the above-listed entities; or pursuant to a program designed to encourage its students to serve in occupations or areas with unmet needs, and under which the services provided by the students are for or under the direction of a governmental unit or certain tax-exempt organizations.

This subtraction is not applicable to the discharge of private loans. This subtraction does not apply to loans that are already excluded from federal income taxation.

57 Real Estate Investment Trust

For taxable years beginning on and after January 1, 2019, taxpayers may claim a subtraction for income attributable to an investment in a Virginia real estate investment trust made on or after January 1, 2019 but before December 31, 2024.

In order for the subtraction to be claimed on the investors' income tax returns, the real estate investment trust in which they invest must be certified by the Department as a Virginia real estate investment trust for the taxable year during which the investment was made. If the fund is approved, a 9-digit certification number will be provided. Enter this number in the "Certification Number" space provided by the subtraction code.

No subtraction is allowed to an individual taxpayer: for an investment in a company that is owned or operated by a family member or affiliate of the taxpayer; who claimed the subtraction for certain long-term capital gains for the same investment; or who claimed the Qualified Equity and Subordinated Debt Investments Tax Credit for the same investment. For more information, see the Form REIT instructions.

58 Gain from Eminent Domain

For taxable years beginning on or after January 1, 2019, taxpayers may claim a subtraction for any

gain recognized from the taking of real property by condemnation proceedings.

59 Federal Partnership Income Subtraction

Income related to a federal partnership audit may be subtracted from Virginia taxable income if the income was previously reported on the owner's Virginia return. The amount of the subtraction is equal to the federal taxable income that was included in the owner's Virginia original income tax return but should not have been reported. When claiming this subtraction, include a copy of the partnership's Form 502FED-1.

60 Military Benefits Subtraction

For taxable years beginning on and after January 1, 2024, certain military benefits received by an individual may be subtracted from Virginia taxable income. The maximum amount of the subtraction is \$30,000 for Taxable Year 2024; and \$40,000 for Taxable Year 2025 and after. If a joint return is filed by two married members of the military both receiving qualifying benefits, each spouse would be able to take advantage of the maximum subtraction for his or her qualifying benefits. "Military benefits" are defined as any military retirement income received for service in the Armed Forces of the United States; qualified military benefits received pursuant to § 134 of the Internal Revenue Code regarding certain military benefits; benefits paid to the surviving spouse of a veteran of the Armed Forces of the United States under the Survivor Benefit Plan established by the U.S. Department of Defense; and military benefits paid to the surviving spouse of a veteran of the Armed Forces of the United States. This subtraction is not allowed if a credit, exemption, subtraction, or deduction is claimed for the same income pursuant to any other provision of Virginia or federal law.

Individuals cannot claim a deduction for a payment that has been, or will be, subtracted by a corporation unless the subtraction is shown on a Schedule VK-1 you received from an S corporation. If you chose to accept payment in installments, the gain from the installment received in the preceding year may be deducted. No deduction is allowed if such contributions are deducted on the contributor's federal income tax return. If the contribution to an ABLEnow account exceeds \$2,000, the remainder may be carried forward and subtracted in future taxable years until the amount has been fully deducted; however, in no event shall the amount deducted in any taxable year exceed \$2,000 per ABLEnow account. Deductions are subject to recapture in the taxable year or years in which distributions or refunds are made for any reason other than (i) to pay qualified disability expenses; or (ii) the beneficiary's death. "Qualifying expenses" are defined as 100 percent of the amount paid or incurred by an eligible educator during the taxable year for participation in professional development courses and the purchase of books, supplies, computer equipment (including related software and services), other educational equipment, and supplementary materials used directly in an individual's service to students as an eligible educator, provided that such purchases were neither reimbursed nor claimed as a deduction on the eligible educator's federal income tax return for the taxable year.

COMPUTATION FOR TAX CREDIT FOR LOW-INCOME INDIVIDUALS OR VIRGINIA EARNED INCOME CREDIT

You may be eligible to claim a Credit for Low-Income Individuals if your family Virginia adjusted gross income (family VAGI) is equal or less than the federal poverty guidelines and you meet the eligibility requirements. You are eligible for the Virginia Earned Income Credit if you claimed an Earned Income Tax Credit on your federal return. Claim the credit that benefits you the most. However, you cannot claim both credits. **Please complete the entire section.**

The Tax Credit for Low-Income Individuals or Virginia Earned Income Credit **may NOT be claimed** if you, your spouse, or any dependent claims any of the following:

- · Virginia National Guard subtraction (Subtraction Code 28);
- · Basic military subtraction (Subtraction Code 38);
- State and federal employees subtraction for earnings of \$15,000 or less (Subtraction Code 39);
- Exemption for blind taxpayers or taxpayers age 65 and over;
- · the Age Deduction; or
- You are claimed as a dependent on another taxpayer's return.
 To compute total annual family income you must compute the "Guideline Income" for each family member and add those amounts together.

Guideline Income is defined as federal adjusted gross income modified by the Virginia additions and qualifying Virginia subtractions that apply to full-year residents.

After a worksheet below has been filled in for each person on your tax return, complete Schedule 760PY ADJ, Lines 10 - 17.

If you and your spouse file separate returns, only one spouse may claim the Credit for Low-Income Individuals. If qualified, both may claim their proportionate share of the Virginia Earned Income Tax Credit.

Line 11 Enter Total Number of Exemptions Listed Above and on Any Enclosed Schedule

Enter the total number of exemptions listed above and on any enclosed schedule.

Determine Eligibility for Credit for Low-Income Individuals

Using the number on Line 11 as Eligible Exemptions, compare the dollar amount on Line 10 to the Poverty Guideline Table below. If Line 10 is greater than the Guideline amount, you do not qualify for the Credit for Low-Income Individuals. Continue to Line 14. If Line 10 is less than or equal to the Guideline amount for the number of exemptions on Line 10, complete Line 14 through Line 17, Schedule 760PY ADJ.

Poverty Guideline Table

Eligible Exemptions	Poverty Guidelines	Eligible Exemptions	Poverty Guidelines
1	\$ 15,060	5	\$ 36,580
2	20,440	6	41,960
3	25,820	7	47,340
4	31,200	8*	52,720

^{*} For each additional person, spouse and dependent exemption, add \$5,380 to the Poverty Guidelines.

Line 12 Exemptions

If you are eligible based on the table above, enter the number of personal and dependent exemptions **from Form 760PY.** Do not include exemptions for age 65 or older and blind.

Line 13 Multiply

Multiply the number of exemptions reported on Line 12 by \$300. If you do not qualify for the Tax Credit for Low-Income Individuals but claimed an Earned Income Tax Credit on your federal return, enter \$0 on Line 13 and proceed to Line 14.

Line 14 Earned Income Credit Claimed on Your Federal Return

Enter the amount of Earned Income Tax Credit claimed on your federal return. If you did not claim this credit on your federal return, enter \$0. When a taxpayer using the married filing separately status computes the Virginia Earned Income Tax Credit, the taxpayer must first determine the proportion of the earned income that was used to qualify for the federal Earned Income Tax Credit. That proportion must then be multiplied by the total Virginia Earned Income Tax Credit, which is 20% of the federal Earned Income Tax Credit. The spouses may then claim their proportional share of the credit on their separate returns.

Line 15 Multiply

Multiply Line 14 by 20% (.20).

Line 16

Enter the greater of Line 13 or 15.

Line 17 Credit

Compare the amount of tax on Form 760PY, Line 18 to the amount on Schedule 760PYADJ, Line 16. Enter the lower amount on Line 17. This is your Tax Credit. Also, enter this amount on Form 760PY, Line 23.

These credits are nonrefundable credits. A nonrefundable credit cannot exceed your tax liability. If you claim any credits on Form 760PY, Lines 24-25, in addition to the Tax Credit For Low-Income Individuals or the Virginia Earned Income Tax Credit, the sum of all nonrefundable credit claimed cannot exceed your tax liability on Form 760PY, Line 18.

Many low-income individuals who work and have earned income under \$66,819 may also qualify for up to \$7,830 in federal Earned Income Credit when filing their federal tax return! See your federal instructions or call 1-800-829-3676 to order Pub 596.

ADDITION TO TAX, PENALTY AND INTEREST

Addition to Tax for Underpayment of Tax

Even if your return results in a refund, you may owe an "addition to tax" for underpaying your withholding or estimated tax. Virginia law requires that you pay your income tax in timely installments throughout the year by having income tax withheld or making payments of estimated tax. If you do not pay at least 90% of your tax in this manner, you may be charged an addition to tax.

There are 4 (quarterly) installment periods for determining whether you underpaid your tax for the year. If your taxable year is from January 1 through December 31, your quarterly payments are due May 1, June 15, September 15 and January 15 (of the following year). Underpayments are determined as of each installment due date, so an overpayment in one quarter cannot cancel out an underpayment for a previous quarter. The addition to tax does not apply if each payment is made on time and:

- the total tax paid through withholding and timely estimated tax payments is at least 90% (66 2/3% for farmers, fishermen or merchant seamen) of the current year's tax liability (after nonrefundable credits) or 100% of last year's tax liability (after nonrefundable credits);
- the sum of the quarterly underpayments for the year is \$150 or less; or
- you meet one of the exceptions computed on Form 760C or Form 760F.

Line 18 Addition to Tax

Enter the amount of the addition to tax computed on Form 760C (for individuals, estates and trusts) or Form 760F (for farmers, fishermen or merchant seamen). If you underpaid your estimated income tax or had insufficient income tax withheld for the taxable year, you may owe the "addition to tax" computed on Form 760C or Form 760F.

Line 19 Penalty

The due date for filing a calendar year return is May 1, and the automatic extension provisions apply to returns filed by November 1. Depending on when you file your return, you may be required to compute an extension penalty or a late filing penalty. For more information on due dates and penalty provisions, refer to When to File Your Return section in these instructions.

Extension penalty: If you file your return within 6 months after the due date and the amount of tax due with the return is more than 10% of your total tax liability, you must compute an extension penalty on the balance of tax due. The extension penalty is applied at the rate of 2% per month or part of a month, from the due date through the date of filing. The maximum extension penalty is 12% of the tax due. Note: If you do not pay the tax in full when you file your return, a late payment penalty will be assessed at the rate of 6% per month or part of a month from the date the return is filed through the date the tax is paid, up to a maximum of 30%. The late payment penalty is imposed in addition to the extension penalty.

Late filing penalty: If you file your return more than 6 months after the due date, no extension provisions apply, and you must compute a late filing penalty of 30% of the tax due with your return.

Line 20 Interest

If you filed a tax due return after the filing date, you are liable for interest on the tax due amount on Form 760PY, Line 27, from the due date to the date filed or postmarked. To obtain the daily interest factor, please call **804.367.8031** or contact your locality.

Schedule VAC

Part I - Commonwealth Savers Contributions

You may contribute all or part of your income tax refund to one or more existing Commonwealth Savers (formerly Virginia529) accounts by completing Schedule VAC. Any contribution(s) made will be deemed a contribution to a Commonwealth Savers account(s) for the 2024 taxable year.

Commonwealth Savers administers flexible, affordable, and tax-advantaged education plans through its programs: Prepaid529, Invest529, CollegeAmerica and CollegeWealth. For more information on establishing accounts, visit Invest529.com. You are not required to be the owner of record for an account in order to direct a contribution of all or part of your income tax refund. However, please remember that only the Invest529 account owner of record as of December 31st is eligible to take the Virginia state tax deduction associated with the education

savings accounts. Please note that the CollegeWealth and Prepaid529 programs are no longer accepting new accounts, but existing account owners may continue to contribute to their current CollegeWealth accounts and Prepaid529 contracts.

Additionally, Commonwealth **Savers** administers ABLEnow and ABLEAmerica tax-advantaged ways to save, invest and pay for qualified disability expenses for eligible individuals with certain disabilities. Generally, funds in an ABLE account are disregarded when determining eligibility for certain Federal means-tested benefits programs, such as Medicaid and Supplemental Security Income (SSI), and for Commonwealth of Virginia means-tested benefits programs as well. For information on the ABLEnow or ABLEAmerica program, visit Ablenow.com. You are not required to be the owner of record for an ABLEnow or ABLEAmerica account in order to direct a contribution of all or part of your income tax refund and the contributor is eligible to take the Virginia state tax deduction associated either of these accounts.

When you specify a Commonwealth Savers contribution amount on Schedule VAC, you authorize the Department to transfer payment and related information to Commonwealth Savers to facilitate crediting contributions to the specified account(s) pursuant to their operating procedures. The information that will be exchanged is identified below:

- The contribution amounts and the program information contained on Schedule VAC.
- The taxpayer's name, Social Security Number or tax identification number, address, and telephone number. Note: Information for both spouses will be provided if a joint return is filed.

For purposes of determining interest on an overpayment or refund, no interest will accrue after the Department transfers the payment to Commonwealth Savers. If Commonwealth Savers is unable to match a contribution to an existing account, they will contact the taxpayer and attempt to resolve the contribution and, if all efforts fail, Commonwealth Savers will return the refund contribution to the taxpayer at the address on the return.

73 Virginia's State Forests Fund

State Forests are self-supporting and managed to sustain multiple natural resources and values [benefits]. Conservation practices protect wetlands, enhance critical wildlife habitat and preserve unique natural areas for biodiversity and provide long-term applied research for restoration and reforestation of native species. Demonstration areas provide private forest landowners with practical, effective solutions to resource management challenges. Recreation opportunities and conservation educational programs are available statewide in all seasons to any age or experience level. State Forests are open to the public without fee for hiking, bird watching and nature observation. Horseback riding, mountain bike riding, fishing, hunting and trapping are allowed on certain state forests with a use permit.

84 Virginia Federation of Humane Societies

The Virginia Federation of Humane Societies (VFHS) is the oldest animal welfare organization in the state. Founded in 1959, our membership includes public and private animal shelters, humane societies, rescue groups, sanctuaries, and animal control agencies, as well as animal caregivers and individual supporters across Virginia. VFHS is committed to ending the killing of healthy and treatable animals in Virginia's sheltering system.

OUR PROGRAMS

Save VA Pets recognizes that resources need to expand beyond the walls of a shelter or rescue and into communities to best address the challenges faced in animal welfare. This program provides diverse support including spay/neuter, animal transport, training, education and guidance on policies and practices that support increased adoptions and progressive lifesaving specific to the community's needs.

High Five VA is dedicated to reducing the euthanasia of healthy and treatable animals in Virginia by the transfer of animals from under-resourced and rural counties to areas where their chances of adoption are far greater. Moving animals from one location to another can result in a decrease in length of stay, a more diverse selection of animals for adopters and a decrease in euthanasia overall.

Spay Virginia is focused on working with shelters, local governments, rescue groups and private veterinarians to provide pet owners and caregivers in Virginia with access to convenient and affordable spay/neuter services.

MISSION STATEMENT

The Virginia Federation of Humane Societies (VFHS) provides progressive leadership, advocacy, resources and support to individuals and organizations committed to improving animal welfare and addressing the issues of animal abuse, neglect, and homelessness in the Commonwealth.

Qualifying Age Deduction

To compute your income based age deduction, use the Age 65 and Older Income based Age Deduction Worksheet on Page 33.

Are you eligible to claim an age deduction?

For 2024, taxpayers born on or before January 1, 1960, may qualify to claim an age deduction based on birth date, filing status and income. A taxpayer who qualifies to claim an age deduction may **NOT** also claim a disability income subtraction, Credit for Low-Income Individuals, or Virginia earned income credit.

For married taxpayers, each eligible spouse may take either an age deduction or a disability income subtraction. Neither spouse may claim an age deduction if 1 spouse claimed a Credit for Low-Income Individuals or Virginia earned income credit, even if filing separate returns. Claim the deduction or subtraction that gives you the greatest tax benefit.

If you or your spouse are not claiming a disability subtraction and you, or your spouse, are not claiming a Credit for Low-Income Individuals and your birth date is on or before January 1, 1960, please read the instructions below to determine if you qualify for an age deduction and the amount of the age deduction you may claim for 2024.

Taxpayers Age 65 and Older

If you, or your spouse if you are married, were **born on or before January 1, 1960**, you may qualify to claim an age deduction of up to \$12,000 each for 2024.

The age deduction you may claim will depend upon your birth date, filing status, and income.

If your birth date is:

• On or before January 1, 1939

Your age deduction is not income based. You may claim an age deduction of \$12,000. If you are married, each spouse born on or before January 1, 1939, may claim a \$12,000 age deduction. For a spouse born after January 1, 1939, the age deduction for that spouse is based on the criteria below.

Multiply the age deduction by the ratio amount from the Ratio Schedule on Page 39 when computing the deduction amount. Enter the adjusted amount on Form 760PY, Line 4.

On or between January 2, 1939, and January 1, 1960
Your age deduction is based on your income. A taxpayer's
income, for purposes of determining an income based.

income, for purposes of determining an **income based age deduction**, is the taxpayer's *adjusted federal adjusted gross income or AFAGI*.

A taxpayer's AFAGI is the taxpayer's federal adjusted gross income, modified for any conformity adjustments, minus Social Security and Tier 1 Railroad Benefits.

 For Filing Status 1, single taxpayer, the maximum allowable age deduction of \$12,000 is reduced \$1 for every \$1 the taxpayer's AFAGI exceeds \$50,000.

Notice to ALL Married Taxpayers

A married taxpayer's **income based age deduction** is **always** determined using the married taxpayers' **joint AFAGI**. Regardless of whether you are filing jointly or separately, if you are married, your income based age deduction is determined on the combined income of both spouses.

In addition, if both spouses are claiming an **income based age deduction**, regardless of whether filing jointly or separately, the married taxpayers must compute a joint age deduction first and then allocate half the joint age deduction to each spouse.

Credit For Taxes Paid To Another State

As a Virginia part-year resident, report and pay income tax only on income you received, regardless of the source of the income, during the period you were a Virginia resident. Income you received while not a Virginia resident is subtracted from your adjusted gross income on Line 7 of Form 760PY. You cannot claim a credit for taxes paid on any income that is subtracted on Form 760PY.

Virginia allows a part-year resident to claim a credit for income tax paid to another state only if the income was also subject to Virginia tax.

This credit applies only to income taxes paid to other states. For more information, see *Va. Code* § 58.1-332 or visit www.tax.virginia.gov.

Exceptions

Arizona, California, or Oregon: If you have income from one of these states, do not claim the credit for tax paid on such income on your Virginia income tax return. If you have income from Arizona, California, or Oregon, claim the credit on the nonresident income tax return of that other state.

However, if you are an owner of a pass-through entity with income from Arizona, California, or Oregon and you participate in the filing of a composite return with any of those states, please consult Public Documents 16-91 and 07-207.

District of Columbia: If you have income from the District of Columbia, do not claim the credit for tax paid on the income on your Virginia income tax return. If you paid individual income tax to the District, follow their instructions to obtain a refund of your withholding.

Kentucky, Maryland, Pennsylvania, or West Virginia: If you are a Virginia resident with wages, salaries and certain other compensation income earned as a nonresident in one of these four states, you are not eligible to claim the credit for any income not taxable by the other state.

Before claiming this credit, review the other state's nonresident instructions to determine if your wages, salaries and certain other compensation income are exempt from taxation in that state. If your wages, salaries and certain other compensation income are exempt, follow the other

state's instructions to obtain a refund of your withholding.

A credit can be claimed on your Virginia return only for income taxes paid to any of the four states listed above on income that was not exempt income.

Special Circumstances

Border State Computation - Kentucky, Maryland, North Carolina, or West Virginia

If you are required to file a return with Virginia and only one other state and that state is listed above, you may qualify for a special computation if:

- The income from that state consists solely of wages, salaries, or business income from federal Schedule C that is taxed by the state; and
- Your Virginia Taxable Income is at least equal to the Qualifying Taxable Income on the border state's return; then
- Mark the border state oval and enter "100.0" in the Income Percentage field.

When calculating income from the border state, do not include income exempt from income tax in the border state, even if it is earned or business income from federal Schedule C. Refer to the **Exceptions** section above.

If filing a joint return and each spouse filed a return separately in **only one** other state and that state is listed above, then each spouse may use the border state computation to compute the credit.

Married Taxpayers

Unless a joint return is filed in both Virginia and the other state, you may need to adjust your taxable income to compute the credit correctly.

- If you filed separately in the other state, but jointly in Virginia, enter only the Virginia taxable income attributable to the filer whose income was taxed by the other state.
- If you filed jointly in the other state, but separately in Virginia, enter only the taxable income attributable to that filer from the other state's return.
- If both spouses are included in the same composite return or entitled to a credit for corporation income tax paid by an S Corporation in which both spouses are shareholders, each spouse must compute income and credits separately.

Elective Pass-Through Entity Tax

Legislation enacted by the 2022 Virginia General Assembly established a new Virginia elective pass-through entity (PTE) tax. Beginning with Taxable Year 2021, the new law also allows taxpayers to claim a credit in proportion to their ownership interest in the PTE for certain taxes paid by the PTE. The tax must have been paid by a PTE under the law of another state that is substantially similar to Virginia's elective PTE tax law. For additional PTE legislation enacted by the 2023 General Assembly, See Tax Bulletin 23-3.

Required Documentation

- A separate computation and related documentation must be submitted for each state for which a credit is claimed using Schedule OSC.
- Enclose a copy of the other state's return if the taxpayer filed an individual return in the other state
- If you are an owner or shareholder in a pass-through entity, and you elected to be included in a nonresident

Composite return filed by the pass-through entity in another state, enclose a Composite Filing Statement from the pass-through entity that documents your inclusion in the filings and your share of the income, tax liability, and tax paid.

- If claiming a credit on corporation income tax paid to a state that does not recognize the federal S Corporation election, enclose a statement from the S Corporation that documents your share of the income, tax liability, and tax paid.
- If you are an owner in a pass-through entity that paid an eligible PTE tax to another state, enclose a statement from the PTE that documents your share of the income, tax liability, and tax paid.

W-2s, 1099s, and Schedule K-1s are not acceptable documentation to support the credit. Visit our website for a list of required forms and a sample Composite Filing Statement.

Schedule OSC Line Instructions

Line 1 Filing Status

Enter the code for the filing status on the other state's return.

- 1. Single
- 2. Married Filing Jointly
- 3. Married Filing Separately
- 4. Composite/Unified
- 5. Other (including Corporation Income Tax paid by an S Corporation and Eligible PTE Tax)

Line 2 Claiming Credit

- Income on which corporation income tax was paid to a state that does not recognize the federal S Corporation election; and
- Income on which an eligible PTE tax was paid to another state on your behalf.

If nonqualifying income is included in the taxable income of the other state, recompute the qualifying taxable income and qualifying tax liability with that income removed. Examples of nonqualifying income include lottery or gambling winnings and unemployment compensation. Additions to federal adjusted gross income or federal taxable income required by the other state are also nonqualifying income unless those items are specifically included in Virginia taxable income.

If nonqualifying income (for example, lottery or gambling winnings and unemployment income) is included in the nonresident taxable income, recompute the qualifying taxable income and qualifying tax liability with that income removed.

If the other state's tax is computed on total taxable income from all sources and then reduced by an allocation percentage, enter the reduced taxable income. Visit our website for a complete list of states that require this calculation.

Line 4 Virginia Taxable Income

Enter the Virginia taxable income from Line 16 of Form 760PY. Married taxpayers, see Special Circumstances above.

If you qualify see Border State Computation under Special Circumstances.

Line 9 Virginia Ratio

Multiply Line 7 by Line 8.

Line 10 Credit

If claiming more than one credit, continue to Line 11 of Schedule OSC. Enter the total of all credits on Line 24 of Form 760PY. The sum of all nonrefundable credits claimed cannot exceed your tax liability on Line 18 of Form 760PY.

TAX RATE SCHEDULE

IF YOUR VIRGINIA TAXABLE INCOME IS:

Not over \$3,000, your tax is 2% of your Virginia taxable income.

over—	but not over—	your tax is—	of excess over—
\$ 3,000	\$ 5,000	\$ 60 + 3 %	\$ 3,000
\$ 5,000	\$17,000	\$ 120 + 5 %	\$ 5,000
\$17,000		\$ 720 + 5.75 %	\$17,000

Example

If your taxable income is \$90,000, your tax is 720 + 5.75% of the amount over \$17,000. This equals $720 + (.0575 \times 73,000) = 720 + 4,197.50 = 4,917.50$ which should be rounded to 4.918.
