Taxes are paid on premiums allocated to Virginia on Schedule T of the NAIC Annual Statement. Companies should review the NAIC Annual Statement Instructions and allocate their premiums accordingly.

Amounts Included in Direct Gross Premiums Income

during the calendar year. Uninsured Motorist Fund

The Uninsured Motorist (UM) Fund distribution is shown in the NAIC Annual Statement as automobile liability premium. It will be necessary to adjust the Annual Statement amount if this distribution was received after December 31. The UM Fund premium is to be shown on Line A of the Form 800 to the extent it is included in the premium reported on Schedule T of the NAIC Annual Statement. The UM Fund premium is to be shown on Schedule 800ADJ on Line 1, to the extent not included in the premium reported on Schedule T of the NAIC Annual Statement. Penalty and interest will be due if this amount is not shown, and such amount must be added to your return as additional premium.

Mutual insurers, other than life companies, may deduct refunds or returns made to policyholders other than those made for losses.

Estimated Payments

Any insurance company with an annual direct gross insurance premiums license tax liability that is expected to exceed \$3,000 is required to file estimated payments each quarter. This \$3,000 limitation is imposed after accounting for any applicable tax credits. Insurance companies must use **Form 800ES** to calculate estimated payments. This form provides instructions for calculating the amount of insurance premiums license tax an insurance company should pay, as well as the amount and due dates for each payment. Insurance companies may submit payments electronically via the Department's website at **www.tax.virginia.gov**.

Any insurance company with an annual direct gross insurance premiums license tax liability that is not expected to exceed \$3,000 after all applicable credits have been used is not required to make quarterly declarations of estimated insurance premiums license tax. Insurer Types

Property, Casualty, and Title Insurers

A property and casualty insurer is a company that may offer a variety of coverages including homeowners, automobile, boiler and machinery, personal injury liability, workers' compensation, and miscellaneous property.

A title insurance company offers coverage against losses by reason of liens and encumbrances upon property, defects in the title to property, and other matters affecting the title to property or the right to its use and enjoyment. Title insurance includes insurance of the condition of the title to property and the status of any lien on property. See *Va. Code* § 38.2-123.

Travel insurance is classified under the inland marine line of insurance. See *Va. Code* § 58.1-2501.1.

Life, Accident, and Sickness Insurers

Life, accident, and sickness insurers provide insurance upon the lives of human beings and against losses resulting from sickness, bodily injury, or accidental death. Life insurance includes policies that provide endowment benefits, accidental death benefits, nonforfeiture benefits in the event of total and permanent disability of the insured, and optional settlement provisions. Life insurance also includes benefits to provide for educational loans, specific disease coverage, and limited benefit health coverage. See *Va. Code* § 38.2-102. Accident and sickness insurance (also commonly referred to as health insurance) is insurance against loss resulting from sickness or from bodily injury or death by accident or accidental means. Accident and sickness insurance includes agreements insuring against losses resulting from health care claims or the expenses of health care. See *Va. Code* § 38.2-109.

Legal Services Plan

A legal services plan is a contractual obligation or arrangement, whereby legal services are provided in consideration of a specified payment consisting in whole or in part of prepaid or periodic charges. See *Va. Code* § 38.2-4400.

Limited Health, Dental, and Optometric Services Plans

Limited health care services include dental care services, vision care services, and such other services as may be determined by the Commission to be limited health care services. Limited health care services do not include hospital, medical, surgical, or emergency services except as such services are provided incident to limited health care services. See *Va. Code* § 38.2-4300.

A health services plan is an arrangement for offering or administering health services or similar services by a

nonstock corporation. Hospitals, physicians, dentists, and optometrists can participate in a health services plan. Subscribers to a health services plan must have free choice of the medical practitioners available and participating in the plan.

A dental or optometric services plan is an arrangement for offering or administering prepaid dental or optometric services by a nonstock corporation that is licensed as a dental or optometric services plan under Chapter 45 of Title 38.2.

Risk Retention Groups

A risk retention group is an insurance company whose primary activities consist of assuming and spreading the liability exposures of its members. The members own the risk retention group and obtain all or part of their liability insurance through the group. Because the members are engaged in similar activities, their liability exposures are related. Risk retention groups are not covered by the Virginia Property and Casualty Insurance Guaranty Association, so if the risk retention group becomes insolvent, its insureds cannot rely on the safety net provided by the guaranty fund. See *Va. Code* § 38.2-1039.1.

Mutual Assessment Property and Casualty Insurer

A mutual assessment property and casualty insurer is a nonstock company that writes only mutual assessment insurance on property located in Virginia or protecting against losses of members who are residents of Virginia. Each member agrees to pay his pro rata share of all losses or damages sustained, expenses of operation, and the maintenance of adequate surplus. The classes of insurance that may be written by a mutual assessment property and casualty insurer depend upon its minimum surplus to policyholders. See *Va. Code* § 38.2-2503.

Cooperative Nonprofit Life Benefit Companies, Mutual Assessment Life, Accident and Sickness Insurers, and Burial Societies

A cooperative nonprofit life benefit company is a nonstock company that issues benefit certificates or policies of life insurance, annuities, or accident and sickness insurance upon its members. Mutual assessment life, accident, and sickness insurers provide insurance upon the lives of human beings and against losses of Virginia members resulting from sickness, bodily injury, or accidental death. Each member agrees to pay his pro rata share of all losses or damages sustained, expenses of operation, and the maintenance of adequate surplus. See *Va. Code* §§ 38.2-3801 and 38.2-3901.

A burial society is any person engaged in the business of providing benefits for any payment of funeral, burial or other expenses of deceased members, by levying assessments or dues that are collected or are to be collected from the members of the society, or from the members of a class of the society. See *Va. Code* § 38.2-4000.

Dental Plan Organization

A dental plan organization is a company that provides directly or arranges for a dental plan. A dental plan is a

contractual arrangement for dental services provided or arranged for, that pays benefits or is administered on an individual or group basis. A dental plan includes, but is not limited to, an arrangement where fixed indemnity benefits are paid to an individual or provider for dental services. See Va. Code § 38.2-6101.

Joint Underwriters Association

A joint underwriters association is a combination of several insurance companies established pursuant to the provisions of Va. Code §§ 38.2-2800 or 38.2-2900 that provides medical malpractice liability coverage or commercial liability coverage.

Major Business Facility Job Tax Credit

For taxable years beginning on and after January 1, 1995, but before July 1, 2025, individuals, estates, trusts, corporations, banks, insurance companies, and telecommunications companies may claim a Virginia tax credit if the taxpayer creates at least 50 new full time jobs in connection with the establishment or expansion of a major business facility or if the company is engaged in a qualifying industry in Virginia and creates at least 50 new full-time jobs in Virginia. If a taxpayer is located in an enterprise zone or in an economically distressed area (as defined by the Virginia Economic Development Partnership), the threshold

is reduced from 50 to 25. Credits will be recaptured proportionately if employment decreases during the 5 years following the initial credit year.

Qualifying industries include: (1) manufacturing or mining; (2) agriculture, forestry or fishing; and (3) transportation and telecommunications companies. The credit only applies to facilities where an announcement to expand or establish such a facility was made on or after January 1, 1994. The credit must be claimed beginning with the taxable year following the year in which the facility is established or expanded, or the new qualifying jobs are added.

Any amount unused this year may be carried forward for the next 10 taxable years. Credits will be recaptured proportionately if employment decreases during the 5 years following the initial credit year. If employment decreases below the threshold, the entire credit will be recaptured.

Worker Training Tax Credit

For taxable years beginning on and after January 1, 2019, but before July 1, 2025, the Worker Training Credit allows businesses to claim a tax credit for the training costs of providing eligible worker training to qualified employees. The credit is 35% of expenses incurred by the business

during the taxable year for eligible worker training, subject to certain limitations. If the recipient of the training is a qualified employee, the credit may not exceed \$500 per qualified employee annually. If the recipient of the training is a non-highly compensated worker, the credit may not exceed \$1,000 per non-highly compensated worker annually.

- credit or noncredit courses at any institution recognized on the Eligible Training Provider List or at any Virginia public institution of higher education, as such term is defined in Va. Code § 23.1-100, or as described in Va. - instruction or training that is part of an apprenticeship agreement approved by the Commissioner of Labor and Industry.

"Qualified employee" means an employee of a business eligible for a credit under this section in a full-time position requiring a minimum of 1,680 hours in the entire normal year of the business' operations if the standard fringe benefits are paid by the business for the employee. Employees in seasonal or temporary positions may not qualify as qualified employees. "Qualified employee" does not include an owner or relative. "Non-highly compensated worker" means a worker whose income is less than Virginia's median wage, as reported by the Virginia Employment Commission, in the taxable year prior to applying for the credit. Before claiming the credit on their income tax return, employers and businesses must apply for certification of the amount of allowable credit using **Form WTC**, Worker Training Tax Credit Application, by April 1 of the year following the year in which the training expenses or orientation, instruction, and training program expenses were paid or incurred. Guaranty Fund Assessment Tax Credit

An insurance company that is a member of the Virginia Property and Casualty Insurance Guaranty Association or the Virginia Life, Accident, and Sickness Insurance Guaranty Association and that receives an assessment from such association has the option to show a certificate of contribution as an asset on its financial income statement. Such amounts must be amortized over the 10 calendar years following the year the contribution was paid, in an annual amount equal to 10% of the contribution. An insurance company may then claim the Guaranty Fund Assessment Tax Credit annually over a 10-year period in an amount equal to the amortized amount for each year. However, the amount of any Guaranty Fund Assessment Tax Credit claimed by an insurance company must be reduced by the same amount that federal income taxes were reduced for the same assessment.

Schedule 800B, Guaranty Fund Assessment Tax Credit Worksheet, must be completed if a credit is shown on the Virginia Insurance Premiums Credit Schedule (Schedule 800CR). Columns A-H of the Schedule 800B must be completed for each certificate being shown for the credit.

Complete the FIT Benefit section of Schedule 800B in the initial year of credit carefully.

Guaranty Fund Assessment Tax Credits in excess of the tax liability are not refundable and cannot be carried forward to future taxable years.

Barge And Rail Usage Tax Credit

For taxable years beginning on and after January 1, 2011, but before January 1, 2025, a business may receive an income tax credit for the usage of barge and rail to move cargo containers throughout the Commonwealth rather than using trucks or other motor vehicles on the Commonwealth's highways.

The amount of the credit is \$25 per 20-foot equivalent unit (TEU) or 16 tons of non-containerized cargo or one unit of roll-on/roll-off cargo moved by barge or rail. To receive this credit, an international trade facility is required to apply to the Department. No more than \$500,000 in tax credits can be issued in any fiscal year. The Department will determine the allowable credit amount for the taxable year and provide a written certification of the credit amount to each taxpayer. Taxpayers can claim this credit against the individual income tax, estate and trust tax, corporation income tax, bank franchise tax, the insurance premiums license tax, and the tax on public service corporations. Any unused tax credits may be carried over for 5 taxable years.

The business must apply by April 1st using **Form BRU**. Submitting a late application will disqualify you from the credit. All applications must be sent to the **Virginia Department of Taxation, Tax Credit Unit, P.O. Box 715, Richmond, VA 23218-0715**. Tax credits earned during the taxable year should be claimed in the year during which they were earned. The credit is equal to 65% of the monetary or marketable securities donation made to the scholarship foundation. Virginia Housing Opportunity Tax Credit

Effective for taxable years beginning on and after January 1, 2021, but before January 1, 2026, a housing opportunity tax credit ("HOTC") is available for certain low-income building projects in an amount up to the amount of federal low-income housing tax credit ("LIHTC") allocated or allowed by the Virginia Housing Development Authority ("VHDA") to such projects. To be qualified, the project is required to be a qualified low-income building, as defined under federal law, that is:

- Located in Virginia;
- Placed in service on or after January 1, 2021; and
- Allocated HOTC by VHDA.

For taxable years beginning on and after January 1, 2021, but before January 1, 2026, a qualified taxpayer may claim a housing opportunity tax credit against its Virginia tax liability prior to reduction by any other credits allowed the taxpayer. The housing opportunity tax credit may be allocated by pass-through entities to some or all of its partners, members, or shareholders in any manner agreed to by such persons, regardless of whether or not any such person is allocated or

allowed any portion of any federal low-income housing tax credit with respect to the qualified project, whether or not the allocation of the housing opportunity tax credit under the terms of the agreement has substantial economic effect within the meaning of § 704(b) of the Internal Revenue Code, and whether or not any such person is deemed a partner for federal income tax purposes as long as the partner or member would be considered a partner or member as defined under applicable state law, and has been admitted as a partner or member on or prior to the date for filing the qualified taxpayer's tax return, including any amendments thereto, with respect to the year of the housing opportunity tax credit. Pass-through entities or qualified taxpayers may assign all or any part of its interest, including its interest in the tax credits, to one or more pass-through entities or qualified taxpayers, and the qualified taxpayer shall be able to claim the housing opportunity tax credit so long as its interest is acquired prior to the filing of its tax return claiming the housing opportunity tax credit.

For calendar years 2022 through 2025, the total amount of housing opportunity tax credits authorized for qualified projects under this article shall not exceed \$60 million per calendar year. Such credits issued each calendar year shall be allowed ratably, with one-tenth of the total amount of credits allowed annually for 10 years over the credit period, except that there shall be a reduction in the tax credit allowable in the first year of the credit period due to the calculation in 26 U.S.C. § 42(f)(2) and any reduction by reason of 26 U.S.C. § 42(f)(2) in the credit allowable for the first taxable year of the credit period shall be allowable for the first taxable year following the credit period.

\$20 million of such credits shall be first allocated exclusively for qualified projects located in a locality with a population no greater than 35,000 as determined by the most recent United States census. Such allocation of Virginia housing opportunity tax credits shall constitute the minimum amount of such tax credits to be allocated for qualified projects in such localities. However, if the amount of such tax credits requested for qualified projects in such localities is less than the total amount of such credits available for qualified projects in such localities, the balance of such credits shall be allocated for any qualified project, regardless of location.

The credit is allowed against the individual income tax, estate and trust income tax, corporate income tax, bank franchise tax, insurance premiums license tax, insurance premiums license retaliatory tax, and license tax telegraph, telephone, water, heat, light, power, and pipeline companies. The credit may fully offset any retaliatory tax imposed by the Code of Virginia.

Credits must be allocated by pass-through entities to its partners, shareholders, or members using **Form TCA**. Form TCA must be filed by the pass-through entity within 30 days of certification of the credit but at least 90 days prior to the participants filing their income tax returns.

Any unused credit amount may be carried forward for 5 years from the year in which the credit is allocated to the taxpayer.

Retaliatory Costs Tax Credit

Qualified domestic insurers may claim a credit against the insurance premiums license tax in an amount equal to the retaliatory costs incurred during the corresponding taxable year as a result of the difference between other states' lower premium tax rates and other costs, and the tax rates and costs imposed by the Commonwealth. Beginning in 2006, the amount of credit is generally limited to 60% of the retaliatory costs paid to other states. However, companies that received a credit in Taxable Year 2000 may continue to claim the full credit.

Any unused Retaliatory Costs Tax Credits may generally be refunded in an amount not exceeding \$800,000 annually per domestic insurance company or affiliated insurance group. Qualified companies that received the Retaliatory Costs Tax Credit in the 2000 taxable year are entitled to receive a refund in an amount up to \$7 million. Refunds for unused credits will be applied to reduce the oldest unused credit carryover amounts. Insurance premiums license tax refunds will be issued after July 1 following the filing of the refund application.

Applications for Retaliatory Costs Tax Credits and for a refund of excess taxes may be submitted by a qualified company individually or on behalf of the members of an affiliated insurance group. Applications must be signed by an independent certified public accountant licensed by the Commonwealth who states that the domestic insurance company or affiliated insurance group is eligible for the credit claimed.

The Retaliatory Costs Tax Credit is taken into account after all other applicable credits. Any credit not taken by a domestic insurance company may be taken by other members of an affiliated insurance group. Any unused tax credits may be carried forward for 10 taxable years.

Retaliatory Tax Report

ENCLOSE DOCUMENTATION WITH THE SCHEDULE 800RET TO SUPPORT YOUR CALCULATIONS.

Code* § 38.2-1026, on business transacted during the 2023 taxable year. The report must show all taxes, fines, penalties, fees for licenses or certificates of authority, or any other sum exacted for the privilege of doing business imposed against Virginia insurance companies or their authorized agents by the state or any subdivision thereof in which the company is domiciled. Such taxes, fines, penalties, fees, and other sums are based upon the same kinds of insurance and amount of premium income which the reporting company has transacted in Virginia during the 2023 taxable year,

EXCLUDING Workers' Compensation in ALL calculations for Column B. The reported taxes, fines, penalties, fees, and other sums should reflect those paid FOR the 2023 taxable year, not those paid IN the 2023 taxable year for another taxable year. Biennial fees MUST be shown as annual fees in Column B of the report.

Reduced Tax Rates or Tax Credits Based on Investments:

Companies domiciled in states that allow reduced tax rates or tax credits based on investments MUST use their Virginia investments for the comparison. The reduced tax rate or tax credit can only be used if the Virginia investments are sufficient to produce the reduced rate.

Municipal Taxes and Fees: Companies domiciled in Alabama, Florida, Georgia, Kentucky, Louisiana, Missouri, South Carolina, or West Virginia must include municipal taxes and/or fees using the information on the chart that you will receive in the mail.

New York Domiciled Life Insurance Companies: New York domiciled life insurance companies must ESTIMATE AND PAY a retaliatory tax, based on estimated franchise tax information, with the Retaliatory Tax Report by March 1 in order to avoid penalties and interest that are associated with all payments made subsequent to March 1. If there is a difference in the Virginia tax liability amount after filing the franchise information in New York, the New York Franchise Tax Forms CT-33 and CT-33-M should be enclosed with your amended Virginia Insurance Premiums License Tax Return. This provision does NOT apply to NON-LIFE insurance companies.

Illinois Domiciled Companies: All Illinois domiciled companies must ESTIMATE AND PAY a retaliatory tax, based on estimated Income Tax information, with the Retaliatory Tax Report by March 1 in order to avoid penalties and interest that are associated with all payments made subsequent to March 1. After you have filed with Illinois and the IRS, a copy of the Corporation Income and Replacement Tax Return, Form IL-1120 is required. If there is a difference in the Virginia tax liability, you must file an AMENDED Virginia Premiums License Tax Return, Form 800.

Schedule 800RET Line Instructions

All non-domestic insurers, except insurance companies domiciled in Canada, are required to file Schedule 800RET. For purposes of determining whether the retaliatory tax applies, an alien insurance company is considered domiciled in the state where it has the largest amount of its assets held in trust and on deposit for the benefit of its policyholders, or of its policyholders and creditors in the United States. An insurance company incorporated in Canada is considered domiciled in Canada.

Domestic insurance companies are not required to complete Schedule 800RET. All other insurance companies that file Form 800 must complete Schedule 800RET. Schedule 800RET must be filed, and the amount of any retaliatory tax owed must be paid by March 1 of each year. Any insurance company that fails to pay the retaliatory tax is subject to interest at the rate set forth in Va. Code § 58.1-15, and

a penalty equal to 10% of the amount due for the period between the due date and the date of full payment.

When a domestic insurer (or its agents) is subject to regulatory costs in another state that are greater than those imposed by Virginia upon insurers domiciled in that state (or their agents), then the regulatory costs imposed by Virginia on foreign insurers from such state are increased to equal the regulatory costs imposed by the other state on the domestic insurer (or its agents).

For purposes of this retaliatory tax, regulatory costs include the following:

- Any deposits of securities,
- The payment of taxes, fines, penalties, or fees exacted for the privilege of doing business, and
- Any restitutions, obligations, or conditions necessary for doing business.
